2 fiber optic panel sockets

Overview

The 2 Ports Fiber Optic Socket Panel is a premium-quality solution designed for FTTH (Fiber to the Home) splicing and termination. Engineered for seamless integration between indoor fiber optic cables and pigtails, this socket panel is compatible with SC, LC, and FC connectors. Compatible with SC/LC/FC adapters, ideal for wall-mounted or desktop installations. Easy to install with push-cover design and supports custom logo printing. It is typically installed inside the subscriber's home or building, close to the central distribution point provided by the broadband service. The 2-port optical fiber box is equipped with an optical fiber adapter connector, which is used for the access and output of dual-port single-core and dual-core optical fibers. The dual-port optical fiber panel box facilitates the storage of optical cables and redundant memory, which met the. Whether you're a homeowner upgrading to fiber or a contractor planning network installations, this comprehensive buyer's guide will walk you through everything you need to know about selecting the right fiber optic socket wall outlet.
