UAE Imported Micro Module IP68

Overview

As prominent waterproofing specialists in the UAE, we provide top-notch waterproofing and thermal insulation services, ensuring long-lasting results backed by a genuine guarantee.

Key Takeaways

IP68-rated micro modules, including switches, connectors, and access control devices, are available in the UAE from multiple suppliers with waterproof and dustproof protection. Overview of IP68 Micro Modules in UAEIP68 micro modules are designed to be completely dust-tight and resistant to prolonged water immersion, making them suitable for outdoor, industrial, and harsh-environment applications. These modules include micro switches, modular connectors, and integrated devices such as biometric access control terminals.

Types and ApplicationsIP68 Micro Switches: These are compact switches used in industrial automation, control panels, and electronic devices. Suppliers in the UAE, such as Switech Electronics, provide imported IP68 micro switches with a focus on quality and after-sales service. IP68 Modular Connectors / Ethernet Connectors: Available from distributors like Mouser Electronics, these connectors ensure reliable data and power transmission in wet or dusty environments.

Integrated Devices: Products like the ZKTeco ProFace X biometric terminal combine multiple RFID modules with IP68 protection, suitable for access control in extreme weather conditions ranging from -30°C to 60°C, and resistant to dust and water.

Suppliers and Purchasing Options

Al Ibtekar: Offers cable management, enclosures, and IP68-rated connectors across the UAE. Switech Electronics: Specializes in IP68 waterproof micro switches and provides sales and after-sales support in the UAE. Mouser Electronics: Stocks IP68 modular and Ethernet connectors with datasheets and pricing for professional applications.

Amazon.ae: Provides IP68 junction boxes and related components with limited stock, suitable for smaller-scale or DIY projects.

Key Considerations

When selecting IP68 micro modules in the UAE, consider: Environmental conditions: Ensure the module meets IP68 standards for your specific water and dust exposure. Compatibility: Check electrical ratings, connector types, and integration with existing systems. Supplier reliability: Choose suppliers with proven after-sales support and verified product quality.

Delivery and stock availability: Some products may have limited stock, so confirm availability before ordering. These imported IP68 micro modules provide robust performance for industrial, commercial, and outdoor applications in the UAE, ensuring durability and reliability in challenging environments.
