72-port fiber optic patch panel

Overview

The CNS072P is a rack mountable fiber patch and splice panel designed to accomodate up to 72 terminations/splices. 3 24 fiber LC-MTP Elite Single-mode Low Loss MTP Cassettes with a total of 72 LC (36 Duplex LC) fiber ports in front and 6 Loss Optimized MTP Elite (12 Fiber Connector) Male/Pinned rear ports. This smart design and professional engineering provides easy installation and maintenance. Cable clamps on the inner surface for fixing cables. Each panel features translucent shuttered adapters with translucent shuttered MTP reversible. OptoSpan's Select RM-72 Rack Mount Termination and Splicing Enclosures provide a convenient, secure and organized housing for fiber optic connections and terminations, as well as a central point for splicing fiber optic cables for data center and telecom applications. It is used for direct connection and branch connection of indoor optical fiber, and plays the role of storage of tail fiber disk and protection of joint.
