

Albanian Optical Cable Fusion Splicer Company

Overview

AFL is a leading provider of fiber optic solutions for broadband networks, data centers, energy infrastructure, and other applications. We offer a wide range of products and services, including fiber optic cable, connectivity, fusion splicers, test and inspection equipment. Identify and compare relevant B2B manufacturers, suppliers and retailers Digicom utilizes advanced fiber optics technology to enhance service stability and quality for businesses, offering high-speed internet solutions like DIGI-FI 1 Gigabit. Vivo Communications offers high-speed fiber optic. The transmission technology used is DWDM (Dense Wavelength Division Multiplexing) allowing for data transmission in very high capacities. SDH and Ethernet are supported offering point to point connections and IP transit services. Their comprehensive services include dedicated internet and data transmission, highlighting their expertise in modern telecommunications. Development of FTTx fiber optic projects, including fiber splicing, testing according to relevant standards, and timely problem resolution, meeting set requirements and service levels. Network maintenance, identifying damage and mobilizing all resources to minimize incident resolution time.
