Micro Sheet Crafts

Offers modular and customized cable trays fabricated from high-grade steel. Competitive market pricing with quality assurance and on-time delivery.

Price Factors

Material: Galvanized steel is cost-effective, stainless steel is more expensive, aluminum is lightweight but pricier, and plastic is budget-friendly but less durable. Tray Type: Wire mesh trays are generally cheaper than ladder or solid-bottom trays and are ideal for lightweight wiring. Size and Load Capacity: Wider or thicker trays increase material costs.

Surface Finish: Powder coating, HDG, or pre-galvanized finishes affect durability and price. Order Quantity: Bulk orders can reduce per-meter costs by 20–40%. Shipping and Installation: Local delivery in the Bahamas may add to the total cost, especially for heavier trays.

Estimated Pricing

Wire Mesh Cable Tray: $2–$15 per meter for standard sizes and materials. Galvanized Steel Ladder Tray: $10–$25 per meter depending on width and load capacity. Custom or CE-Certified Trays: Prices may be higher, with options for free samples and 10-year guarantees available from some suppliers.

Recommendation

For an accurate price quote, it is best to contact suppliers directly with your project specifications, including: Required tray length, width, and heightMaterial preference (galvanized steel, stainless steel, aluminum, or fiberglass)Surface finish and corrosion resistance needsQuantity and delivery location in the Bahamas Suppliers like Jeetmull Jaichandlall and Brilltech Engineers can provide customized quotations within 24 hours based on these details. This approach ensures you receive a precise, project-specific price while considering bulk discounts and local delivery logistics.
