Bosnia and Herzegovina Cold Passage Explosion-proof Type

Overview

Types VSP™ (Vent-Saf Plus) and VSS™ (Vent-Saf Sanitary) domed single section metal explosion vents with integral gaskets. The dome is formed to resist vacuum. Flamgard type BLD-01 High Pressure Blast Damper is of a high performance design suitable for the arduous conditions encountered in offshore/onshore oil and gas, marine, nuclear, tunnel and industrial environments. The Blast Damper has been independently blast performance tested and is certified by. The inventory of AFBiH comprises mainly ageing Soviet-era equipment, though some new helicopters have been procured from the US. Bosnia-Herzegovina has little in the way of a domestic defence industry, with only the capability to produce small arms, ammunition and explosives. This is a list of. These explosion-proof enclosures are the spearhead in terms of safety and provide optimum protection for your installed components against the ingress of gas, dust or water. Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. These sturdy solutions are certified according to global standards such as ATEX, IECEx. to be the one and only accepted certification system! To achieve total ACCEPTANCE there's a first need for CONFIDENCE. Hot surfaces Flames, hot gases, hot particles Mechanically generated sparks Electrical equipment Stray.
