Bulgarian fiber optic cable rewinding machine manufacturer

Overview

Our company is located in Denizli/Turkey and continues its success in cable production and cable machine production rapidly and progresses more and more each day.

Key Takeaways

GAMAKABEL and Cimler Ltd. are leading Bulgarian companies involved in fiber optic cable production, equipped with specialized machinery that may include cable rewinding systems.

GAMAKABELGAMAKABE

L, established in 1975 in Smolyan, Bulgaria, is one of the major cable and conductor manufacturers in the country. Their production facilities include modern machinery from global suppliers such as HENRICH and NIEHOFF drawing machines, SAMP stranding machines, Swiss extruders from MAILLEFER, and braiding machines from WARDWELL and SPIRKA. The company also uses special equipment constructed and produced in Bulgaria, which likely encompasses fiber optic cable handling and rewinding machinery.

L emphasizes high-quality production standards and operates a central test laboratory to ensure compliance with international standards like HD, EN, IEC, DIN VDE, BS, ASTM, and GOST. Cimler Ltd. Cimler Ltd., founded in 2018 and operational since early 2025, is a Bulgarian manufacturer specializing in high-performance fiber optic cables for telecom, industrial, and infrastructure networks.

Their production plant focuses on reliability, top-grade raw materials, and on-time delivery. While the company primarily highlights cable manufacturing, their modern production setup for indoor, outdoor, armored, and flexible fiber optic cables suggests the use of automated cable handling and rewinding systems to ensure consistent quality and efficient production.

Other Bulgarian Cable Manufacturers

Additional companies in Bulgaria involved in fiber optic cable production include Fibicon, Filkab AD, CST, MarniTech Ltd., and Alcomtech. While these companies focus on cable manufacturing, distribution, and assembly, some may offer or collaborate with machinery suppliers for cable processing, including rewinding equipment.

Recommendation

For sourcing fiber optic cable rewinding machines in Bulgaria, it is advisable to: Contact GAMAKABEL directly to inquire about their in-house machinery or potential suppliers of rewinding systems. Reach out to Cimler Ltd. for information on their production line capabilities and whether they provide or recommend rewinding equipment. Explore partnerships with Bulgarian engineering firms like Filmar Engineering Ltd., which specialize in industrial design and machinery solutions for cable production.

These companies represent the most relevant starting points for acquiring or sourcing fiber optic cable rewinding machines in Bulgaria.
