Jooyeshgar / Armin Steel Connection Company Produces metal and galvanized cable trays with thicknesses from 0. 5 to 2 mm and widths from 50 to 1100 mm. They offer hot-dip and cold-galvanized options suitable for industrial applications in oil, gas, petrochemical, and pharmaceutical sectors.

Micro Sheet Crafts Offers a wide range of customized cable trays in Iran, fabricated from high-grade steel and other durable materials. They provide modular solutions, quality-tested products, and on-time delivery for industrial and commercial projects. Considerations When Choosing a SupplierMaterial Type: PVC for chemical resistance and outdoor durability; galvanized or steel for heavy-duty industrial use.

Size and Load Capacity: Ensure the tray width, thickness, and length meet your project requirements. Environmental Resistance: Consider UV, moisture, and chemical exposure for long-term performance. Customization: Some suppliers offer custom designs and accessories for complex installations.

Certification and Standards: Check for compliance with Iranian and international quality standards. For purchasing, it is recommended to contact suppliers directly to discuss specifications, availability, and pricing. Many of these companies also provide technical support and installation guidance.
