Cable tray cable rack price

Overview

Discover cable management racks designed for desks and server installations. Keep cables organized and out of sight.

Key Takeaways

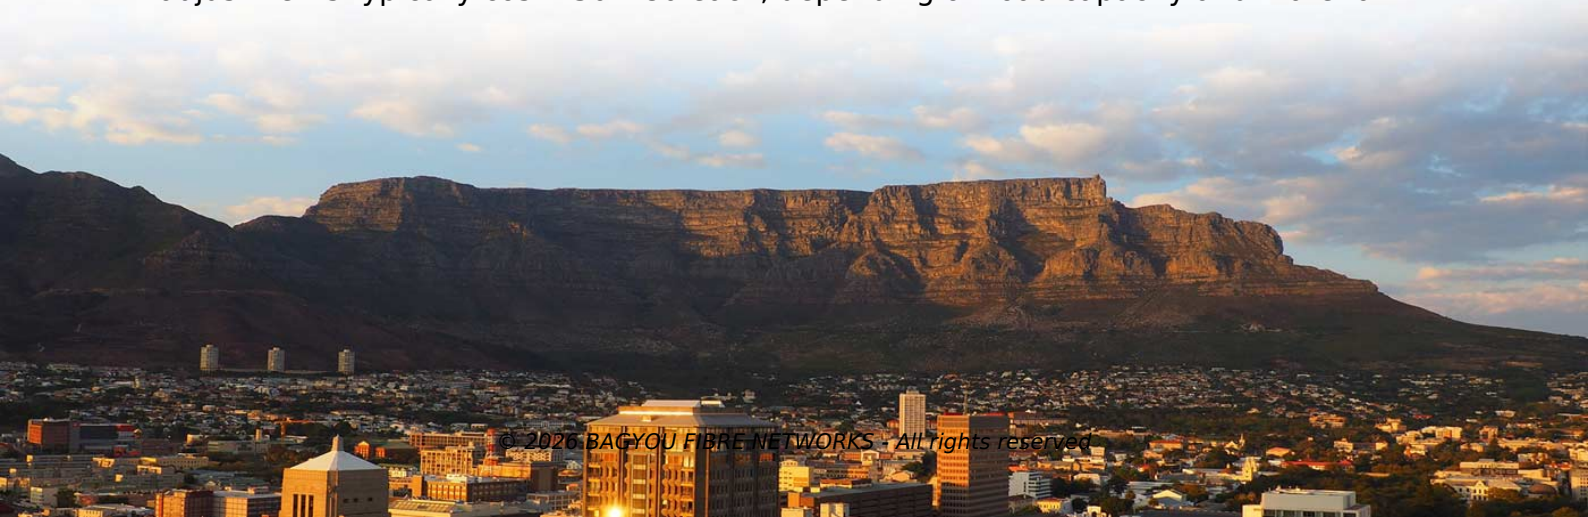

Cable trays and cable laying racks typically range from £20 to £300 per meter depending on type, material, and load capacity. Price OverviewLight-duty cable trays: Usually made of pre-galvanized steel or PVC, suitable for small cable runs. Prices generally start around £20–£40 per meter for standard 50–100mm widths.

Medium-duty trays: Designed for larger cable loads, often pre-galvanized or hot-dipped galvanized steel. Prices typically range from £50–£100 per meter, depending on width (100–300mm) and finish. Heavy-duty trays: For industrial or high-load applications, made from hot-dipped galvanized or stainless steel.

Prices can range from £120–£300 per meter, with widths up to 600mm and lengths of 1–3 meters.

Accessories and Fittings

Couplers, bends, tees, and crossovers: Sold separately, usually £5–£50 per piece depending on size and material. Risers and supports: Variable risers for height adjustments typically cost £30–£80 each, depending on load capacity and material.

Factors Affecting Price

Material: Steel (pre-galvanized or hot-dipped) is more expensive than PVC or fiberglass. Load capacity: Heavy-duty trays for industrial use cost significantly more than light-duty trays. Length and width: Wider and longer trays increase the price per unit.

Finish: Hot-dipped galvanization or powder coating adds to durability and cost. Brand and supplier: Premium brands like Eaton or Direct Channel may have higher prices but offer extensive support and compatibility options. For accurate pricing, it is recommended to contact suppliers directly such as CPC UK, CEF, RS Components, Eaton, or Direct Channel, as they can provide quotes based on your specific project requirements, including tray type, length, width, and accessories.
