Certified Cold Aisle 19-inch

Overview

Fits standard 19 in EIA-compliant rack rails for universal compatibility. Available in multiple heights (1U–10U+) to match rack configurations. Smooth powder coat finish provides a clean, professional appearance. Cold Aisle Containment (CAC) approach encloses aisle space and makes airflow management efficient in server cooling, contributing to lower PUE and greener environment! The CAC solution gets cold air well directed from highly perforated doors, along through racks of servers, thereon comes out. Standard 19-inch Design: Fits standard server racks for efficient data center layout. High-Quality SPCC Cold Rolled Steel: Durable and resistant to corrosion for long-term use. Customizable Solutions: Accepts OEM & ODM. Shipping fee and delivery date to be negotiated. The Aisle Containment System is an intelligent thermal containment solution designed to increase cooling system efficiency while protecting critical IT equipment and. Innovation in cold aisle rack design focuses on modularity, intelligence, and integration. These trends are shaping the next generation of data center infrastructure. Modular and Prefabricated Designs: Solutions are increasingly shipped as pre-assembled, scalable modules.
