Direct supply of fiberglass cable trays from the UAE

Overview

GRP / FRP Cable tray supplier in Dubai, UAE.Based in UAE, we provide our clients with a full service and quality-focused supply of precise custom-made prod.

Key Takeaways

Fiberglass (GRP/FRP) cable trays are available from leading UAE suppliers like Unigroup and Al Bustan Groups, offering lightweight, corrosion-resistant, and easy-to-install solutions. Recommended Suppliers1. Unigroup Unigroup manufactures Glass Reinforced Polyester (GRP/FRP) cable management systems in the UAE.

Their trays are 40–50% lighter than metallic alternatives, highly resistant to corrosion even in chemical environments, and do not require earthing. They are suitable for industrial, commercial, and utility applications, and can be easily cut, drilled, and installed on-site. Unigroup also provides customized solutions for specific load and installation requirements, ensuring long-term durability and safety compliance.

Website: https:// 2. Al Bustan Groups Al Bustan Groups offers fiber-reinforced plastic (FRP) cable trays suitable for industrial plants, commercial buildings, data centers, and power infrastructure projects.

Their FR

P trays provide excellent corrosion resistance, lightweight handling, and safe cable routing. They also supply ladder, perforated, solid-bottom, and wire mesh trays, with options for custom sizes, bends, and covers. Contact: +971 50 122 6323.

Website: https:// 3. West Port Cable Tray West Port Cable Tray supplies a wide range of cable management systems, including FRP/GRP trays for light, medium, and heavy-duty applications. They provide tailored solutions with excellent ventilation and protection for electrical wiring, making them suitable for both commercial and industrial projects.

Website: https://westport-me.com/Key Considerations for Fiberglass Cable Trays in the UAECorrosion Resistance: FRP trays are ideal for coastal or chemical-exposed environments due to their high resistance to rust and chemical degradation. Weight and Installation: Fiberglass trays are lighter than steel, making them easier to handle and install, especially for rooftop or elevated applications. Customization: Many suppliers offer custom widths, heights, rung spacing, bends, and powder-coated finishes to meet specific project requirements.

Electrical Safety: FRP trays do not conduct electricity, reducing the risk of heat transfer to cables and eliminating the need for grounding. For projects in Dubai, Abu Dhabi, or Sharjah, these suppliers provide both standard stock and customized fiberglass cable tray solutions, along with technical support for installation and long-term maintenance.
