Distribution box suspension wire

Overview

Use high-temperature resistant copper core wire, and the cross-sectional area should meet the load current requirements. ABC Cable Accessories are essential components in modern overhead power distribution systems. These accessories, including suspension clamps, anchoring clamps, service clamps, insulation piercing connectors, midspan joints, and low-voltage distribution boxes, ensure the mechanical stability. Single-phase distribution boards are mostly used in domestic house wirings such as houses offices, shops, etc. The main function of cross arms is to keep the phase conductor at the safest distance from each other and from the line support. Our wire rope and FastTrak systems eliminate on-site cutting, reduce. A distribution box is the heart of any electrical system.
