Does the server room need cable management racks

Overview

Racks with built-in cable management features minimize clutter and enhance airflow. The mantra “out of sight, out of mind” doesn't apply to cable management. According to the ITIC 2024 Hourly Cost of Downtime Report, a single hour of unplanned outage could cost over CAD 300,000 for more than 90% of mid-size and large enterprises. In server rooms and data centers, multiple power and data cables connect servers, switches, and networking equipment within rack systems. Structured cable routing helps maintain clear. Proper cable management improves airflow, reduces downtime, simplifies maintenance, boosts performance, and keeps server racks safe, clean, and future-ready. Need a site survey?

Talk to a cabling team that works in NYC buildings every day. This is particularly true for modern network.
