Egypt sells electrical distribution boxes custom-made to order

Overview

Designed to house electrical, electronic, hydraulic or pneumatic controls with provision for panel mounting or rack mounting of equipment.

Key Takeaways

Egyptian manufacturers like KSA El-Tholathia, Keming Electrical, and SKKBO offer high-quality, customizable electrical distribution boxes with international certifications and tailored solutions for diverse applications. Leading ManufacturersKSA El-Tholathia specializes in a wide range of distribution boxes, including wall-mounted, floor-standing, knockdown, and stainless steel cabinets. Their products are certified with CE, RoHS, and IP42–IP66 ratings, ensuring protection against dust and water.

KS

A also provides OEM and ODM services, enabling customization for voltage requirements, enclosure ratings, and project-specific needs. They have recently received IP65 certification from the European SGS Laboratory, confirming high standards of quality and safety. Keming Electrical offers distribution boxes engineered for Egypt's varied environments, from coastal humidity to desert heat.

Their portfolio includes XL-21 low-voltage boxes, GGD AC cabinets, MNS AC cabinets, and specialized units for EV charging networks and solar installations. Keming products comply with Egyptian electrical safety codes and carry over 150 international certifications, ensuring reliability and seamless project approval. They provide full technical support, OEM/ODM customization, and solutions for industrial, residential, and renewable energy applications.

SKKB

O provides versatile electrical boxes for residential, industrial, and photovoltaic applications. Their products are UL-listed, CE-certified, and IP/IK-rated, designed to handle high voltage and heavy-duty machinery.

SKKB

O emphasizes collaborative design, allowing clients to specify size, material, configuration, and additional functions. They offer rapid response, detailed quotes within 48 hours, and 24/7 technical support for custom solutions.

Applications and Features

Industrial and Commercial: Low and medium voltage distribution, switchgear, and metering cabinets for factories, metro stations, and office complexes. Renewable Energy: Energy storage cabinets, reactive power compensation devices, and solar PV distribution boxes.

E

V Infrastructure: High-power DC fast charger distribution boxes with smart load balancing and surge protection. Environmental Protection: Corrosion-resistant and humidity-proof enclosures suitable for coastal and resort areas. Compliance and Safety: Products meet IEC standards, Egyptian electrical codes, and international certifications for CE, RoHS, UL, and IP ratings.

Additional Egyptian Suppliers

Other notable companies include Dynamic Company, ElectroPower, TEPCO, and iPower, which provide medium and low voltage systems, transformers, switchgear, and electrical contracting services. These firms focus on energy efficiency, industrial automation, and solar energy solutions, offering both supply and installation services.

Summary

Egyptian manufacturers provide customizable, certified, and durable electrical distribution boxes suitable for a wide range of applications, from industrial and residential to renewable energy and EV infrastructure. Companies like KSA El-Tholathia, Keming Electrical, and SKKBO offer OEM/ODM services, international certifications, and technical support, making them reliable partners for projects requiring tailored electrical solutions.
