Fiber Optic Cable Reel Refurbishment in the Netherlands

Overview

But rest assured, whatever type of fibre-optic cable is defective or damaged, we will always find a solution to repair or replace it quickly and professionally.

Key Takeaways

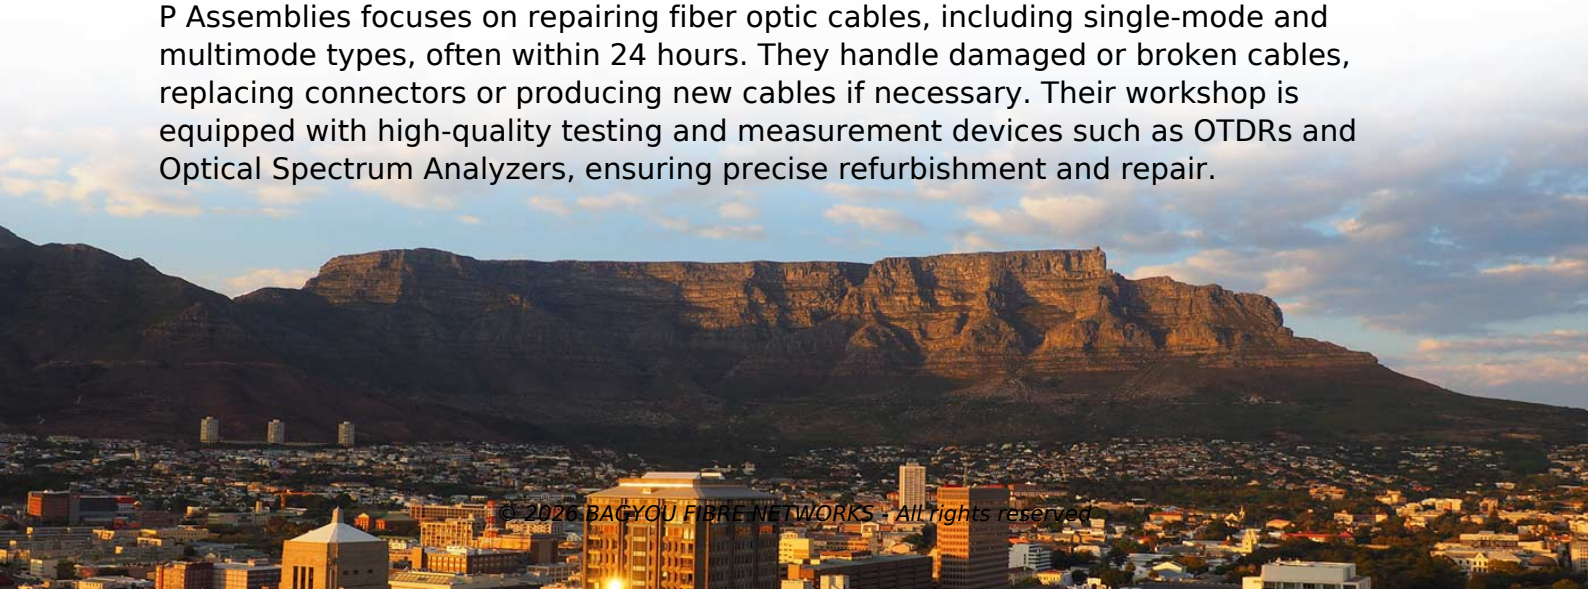

Vijselaar and MCAP Assemblies offer professional refurbishment and repair services for fiber optic cable reels in the Netherlands.

Refurbishment Services

Vijselaar, based in Amsterdam, specializes in refurbishing and overhauling cable reels, including spring cable reels, resistance packages, and sliprings. They provide both on-site and workshop refurbishment, restoring worn components to extend the lifespan of your equipment. Their services also cover contacts, power switches, and other critical parts of cable handling systems, ensuring reliable performance for fiber optic operations.

MCA

P Assemblies focuses on repairing fiber optic cables, including single-mode and multimode types, often within 24 hours. They handle damaged or broken cables, replacing connectors or producing new cables if necessary. Their workshop is equipped with high-quality testing and measurement devices such as OTDRs and Optical Spectrum Analyzers, ensuring precise refurbishment and repair.

Additional Fiber Optic Services

Several other companies in the Netherlands provide complementary services for fiber optic networks: TOF Group: Offers fiber splicing, testing, commissioning, and fiber blowing for both residential and commercial applications.

R

J Glasvezeltechniek: Specializes in laying, blowing, and terminating fiber optic cabling, with certified engineers and customized solutions. Farnell Netherlands: Supplies high-quality fiber optic cables in single-mode and multimode configurations, suitable for refurbishment or network upgrades.

Considerations for Refurbishment

When refurbishing fiber optic cable reels, it is important to: Inspect connectors carefully, as scratches or dirt can compromise performance. Avoid mechanical stress on cables to prevent fiber breakage. Ensure proper testing after refurbishment to verify signal integrity and performance.

Conclusion

For fiber optic cable reel refurbishment in the Netherlands, Vijselaar and MCAP Assemblies are reliable options, offering both component refurbishment and full cable repair. For broader network support, companies like TOF Group, RJ Glasvezeltechniek, and Farnell Netherlands provide complementary services, ensuring your fiber optic infrastructure remains efficient and reliable.
