Fiber Optic Cable and Wire Prices

Overview

Discover the cost of fiber optic cable in this pricing guide. Learn material prices, installation factors, and what impacts total project costs overall.

Key Takeaways

Fiber optic cables typically cost $0. 09 to $6 per foot depending on type, strand count, and installation, while wire prices vary widely by material and gauge.

Fiber Optic Cable Pricing

Material Costs: Single-mode fiber (OS2): $0. 09 to $1. 52 per foot for bulk purchases; retail prices can range $1 to $6 per foot.

Multimode fiber (OM3/OM4): $1. 50 to $6 per foot due to wider cores and higher manufacturing standards. Armored cables: $1.

15 to $6. 50 per meter, providing protection against physical damage. Patch cords and pre-terminated assemblies: Higher costs due to factory termination and connector type.

Installation Costs: Indoor runs are generally cheaper than outdoor or underground installations. Labor, trenching, splicing, and termination can add $1 to $3 per foot depending on complexity. Example project ranges: Basic indoor run (1,000 ft single-mode): Total ≈ $2,650–$3,100Mid-range outdoor run (2,000 ft with conduit): Total ≈ $4,940–$6,120Premium outdoor run (5,000 ft armored, multiple splices): Total ≈ $11,000–$14,500 Factors Affecting Price: Fiber strand count (1-core vs 288-core)Cable jacket type (LSZH, PVC, armored)Connector type and pre-terminationRegional labor and permit costs Procurement Tips: Small purchases: B2C platforms like AmazonBulk orders: B2B suppliers like Alibaba, negotiating on minimum order quantity, lead times, and specifications Wire PricingCopper and other wire types vary by material, gauge, and market conditions.

Prices are influenced by: Raw material costs (copper, aluminum)Wire gauge and insulation typeRegional supply and demand trends General Guidance: Bare copper wire is typically priced per pound or per foot, with fluctuations based on commodity markets. Specialty wires (armored, high-temperature, or low-smoke) cost more due to additional materials and manufacturing complexity.

Summary

Fiber optic cable: $0. 09–$6 per foot (materials), plus $1–$3 per foot for installation depending on complexity and environment. Wire: Highly variable; depends on material, gauge, and market conditions.

Bulk purchasing and pre-terminated assemblies can reduce labor costs but increase material costs. For accurate budgeting, consider both material and installation costs, cable type, and project-specific factors such as distance, environment, and connector requirements.
