Galvanized Straight-Through Cable Tray Manufacturer

Overview

Cable Trays | EAE USAHeavy duty cable trays and cable ladders are manufactured from pre-galvanized, electro-galvanized, or hot-dipped galvanized sheet meta.

Key Takeaways

Leading manufacturers of galvanized straight-through cable trays include NewReach, Spina Group, Eurostrut, ABB, and Jiangsu Holdee Electric Co., Ltd., offering durable, corrosion-resistant solutions for industrial applications. Key Manufacturers and Offerings1.

New

Reach New

Reach specializes in galvanized cable trays designed for strength and durability, supporting heavy cable loads without sagging or deformation. Their trays are made from steel with a zinc coating, providing excellent corrosion resistance, especially in damp or chemically harsh environments. Available in ladder-type, solid bottom, wire mesh, and perforated styles, these trays can be customized in size and configuration.

Hot-dip galvanizing is commonly used to ensure long-term durability and compliance with industry standards, making them suitable for industrial and high-risk environments. 2. Spina Group (Schiavetti Tekno) An Italian manufacturer, Spina Group offers hot-dip galvanized ladder cable trays and other types, including perforated and closed-bottom trays.

Their products are designed for industrial plants, ensuring electrical continuity, thermal expansion management, and compatibility with accessories like elbows, junctions, and covers. They provide custom sizes and comply with European (EN) and international (UL) standards, making them suitable for demanding industrial installations. 3.

Eurostrut Eurostrut provides hot-dip galvanized steel cable trays suitable for indoor and outdoor applications. Their trays are designed for fast installation, flexible configurations, and safe cable management. They offer various widths, heights, and types, including open and perforated designs, which help prevent overheating and ensure organized cable routing.

Eurostrut also supplies cable trays for industrial and marine use, including NATO-type models. 4.

ABB AB

B manufactures a wide range of cable tray systems, including perforated trays, cable ladders, and channel trays. Their galvanized trays are produced in Canada and Saudi Arabia, supporting medium to ultra-heavy-duty applications.

AB

B emphasizes reliability, adaptability, and ease of maintenance, ensuring long-lasting performance for industrial installations. 5. Jiangsu Holdee Electric Co., Ltd.

Holdee offers straight galvanized steel through-type cable trays with covers, available in hot-dip galvanized, electro-galvanized, and powder-coated finishes. Their production capacity exceeds 30,000 tons annually, and they provide global export services. Holdee trays are suitable for oil, gas, chemical, machinery, power, transportation, military, aviation, and shipbuilding industries.

They also offer ISO9001, ISO14001, ISO45001, 3C, and EU CE certifications, ensuring high-quality and compliant products.

Considerations for Selection

Material and Coating: Hot-dip galvanized steel is preferred for corrosion resistance and long-term durability. Tray Type: Ladder, perforated, solid bottom, or wire mesh depending on ventilation, load, and environmental requirements. Customization: Many manufacturers offer custom widths, lengths, and thicknesses to meet project-specific needs.

Certifications: Look for ISO, UL, EN, or CE certifications to ensure compliance with safety and quality standards. Installation and Accessories: Consider compatibility with elbows, junctions, covers, and supports for modular and secure installation. These manufacturers provide reliable solutions for industrial, commercial, and marine applications, ensuring safe, durable, and efficient cable management.

Article Content

Cable Trays | EAE USA

Heavy duty cable trays and cable ladders are manufactured from pre-galvanized, electro-galvanized, or hot-dipped galvanized sheet metal, designed to meet ideal environmental working conditions for

Perforated, GI, MS & Ladder Type Cable Trays

Choose Superfab Cable Trays as your reliable partner for all your cable management needs. Our extensive selection of sizes, materials (like GI, HDG,

Cable trays

Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project

Cable Trays

Our mesh cable trays are available in galvanised, stainless steel, or electro-zinc finishes, providing high resistance to corrosion and mechanical stress. Each system includes straight elements, shelves,

Cable Tray Systems

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative

Cable Trays & Accessories | Cable Management Systems | MEP

SFSP manufactures a wide range of products capable of providing the characteristics which respond to the proposed application, along with quality of assembly, speed of installation, and cost-saving cable

Cable Trays

Heavy duty cable trays and cable ladders are manufactured from pre-galvanized or hot-dipped galvanized sheet metal, designed to meet ideal environmental working conditions for indoor and

Eurostrut Cable Trays | cable tray, cable route and NATO tray

Strong and durable – Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. Fast installation – Reduce installation costs with quick and efficient assembly. Flexible

Cable Tray, Cable Bus, Wire Mesh Cable Trays | MP Husky

© 2026 BAGYOU FIBRE NETWORKS - All rights reserved

MP Husky manufacturers Cable Tray Systems, Cable Bus System, Wire Mesh/Wire,Cable Tray, & Cable Management Systems. Our cable support systems & power distribution are CSA UL NEMA

Cable Tray Systems | Cable Management Trays | Metsec

Our Cable Tray Systems and cable management trays offer high quality steel and galvanised steel solutions for the mechanical and electrical services industries.
