High-precision optical cable winding tubes are available in stock

Overview

FiberOptic SupplyWe offer fiber optic materials from Test Equipment, Bulk Cable and Fusion Splicers to Tools, Patch Cables and Consumables. 100 % automatic.

Key Takeaways

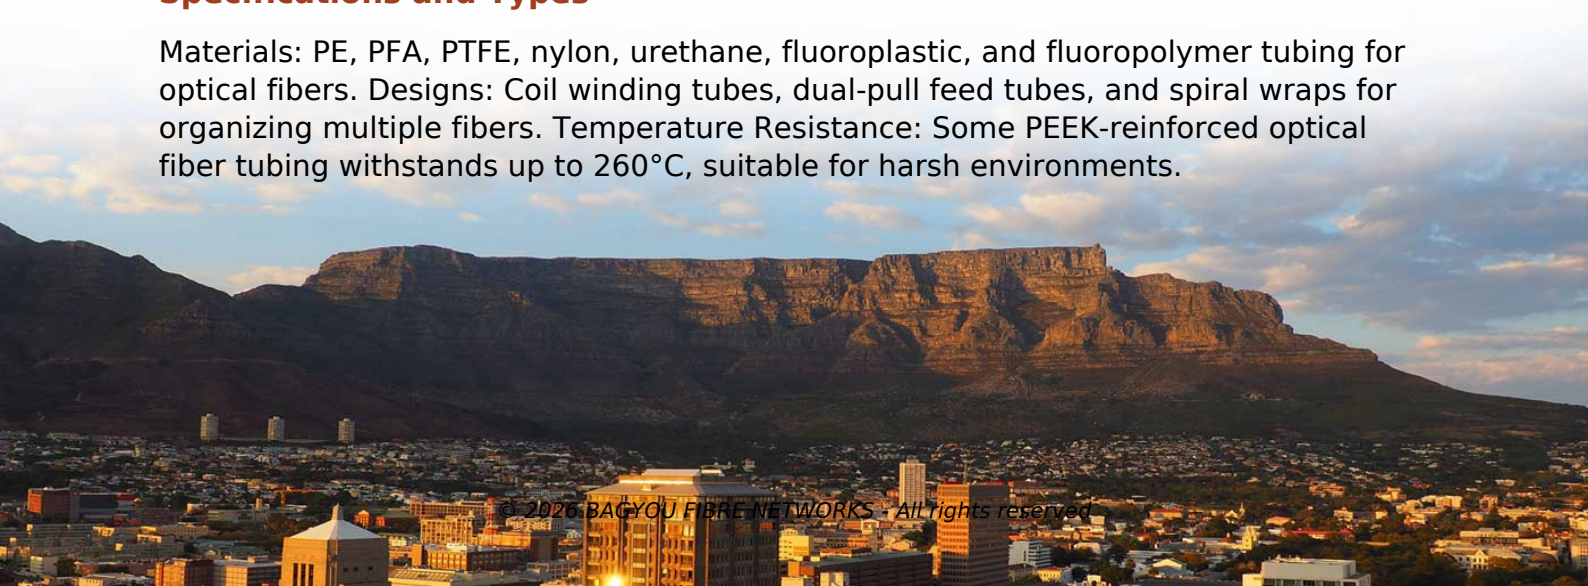

High-precision optical cable winding tubes are available in stock from multiple suppliers, including distributors of fiber optic tubing and specialized manufacturers.

Availability and Stock

Several suppliers offer fiber optic tubing suitable for high-precision winding applications, including coil, colored, plated, and flexible non-metallic types. Most items are available in stock with 24/7 service and same-day shipping options, making them suitable for industrial, commercial, medical, and automotive applications (ThomasNet). Spiral wrapping tubes for optical cables are also in stock, providing abrasion protection and flexible cable management, with delivery for small quantities within 1–3 days (Made-in-China).

Specifications and Types

Materials: PE, PFA, PTFE, nylon, urethane, fluoroplastic, and fluoropolymer tubing for optical fibers. Designs: Coil winding tubes, dual-pull feed tubes, and spiral wraps for organizing multiple fibers. Temperature Resistance: Some PEEK-reinforced optical fiber tubing withstands up to 260°C, suitable for harsh environments.

Precision: Tubes are compatible with high-precision winding machines, ensuring minimal signal loss and gentle handling of delicate fibers. Integration with Winding SystemsHigh-precision optical cable winding tubes are designed to work seamlessly with automated winding machines that provide: Constant tension control and low-twist placement for delicate fibers. High-speed precision winding with ±0.

05mm accuracy. Modular and scalable systems for flexible production lines. Real-time monitoring and quality control for fiber optic materials.

Suppliers and OrderingThomasNet: Offers a wide range of fiber optic tubing and components, with stock ready for immediate shipment.

Made-in-

China: Provides spiral wrapping and protective tubing with fast delivery for small orders. Supertek: Supplies high-precision winding machines and compatible tubing solutions for fiber optic production. These options ensure that manufacturers and installers can access high-precision optical cable winding tubes immediately, supporting both small-scale and high-volume production needs.

Article Content

FiberOptic Supply

We offer fiber optic materials from Test Equipment, Bulk Cable and Fusion Splicers to Tools, Patch Cables and Consumables.

100 % automatic precision winders | Roblon

Roblon Precision Coiling Unit (PCU) eliminates the need for manual guiding of the cable in the take-up process. The cable is positioned perfectly side by side

High-Precision Winding Machines for Fine Wire & Optical Fibers

Realize your machine and production with the best winders, spoolers and components of winding technology. For ultra-fine wire, flat wire, tape, foil, filament, optical or thermoplastic fibers.

Showmark Home

Showmark has produced custom winding machines for many unusual applications in the medical, telecom, sensing, aerospace, solar, defense, and fishing industries.

REWINDING MACHINE

Developed for the fast and accurate rewinding of optical fibers, fiber optic cables and delicate filaments, these systems achieve winding speeds of up to 1000 m/min, all while ensuring exceptional tension

High-Speed Precision Winding of Fiber Optic Coils

Newton developed a camera, custom lens and illuminator system on a high-speed, three-axis motion stage to control complex windings of optical fiber coils.

Winding Technology :: Supertek

Winding Technology Supertek offers solutions for unwinding, winding and rewinding extremely thin and sensitive materials such as wire, flat wire, fiberglass, optical fibers, fiber, filament, silk, foil, solder,

Supertek WLT

Supertek WLT is a manufacturer and supplier of high-quality machines and precision-engineered products for the gentle unwinding, winding, rewinding and respooling of ultra-thin and delicate materials.

High-Performance Composite Tubes & Rods | ACP

Explore ACP''s lightweight, high-strength composite tubes and rods in carbon fiber, fiberglass, and Kevlar®. Superior alternatives to metal with custom sizing available.

Precision winding of fiber optic filament. I. Winding characteristics

Some unique aspects and characteristics for precision winding of optical fiber are described. The characteristics of optical fiber and the manner of winding chosen give rise to unique challenges. The

Fiber Optics Industry :: Supertek

This machine allows for precise control and ensures a constant winding process, which is crucial for the production of fiber optics. This system is particularly indispensable in the manufacturing of optical

REWINDING MACHINE

When speed meets precision, Supertek''s high-speed rewinding systems deliver performance without compromise. Developed for the fast and accurate rewinding of optical fibers, fiber optic cables and

Fiber Optic Spooling Machines | Supertek

© 2026 BAGYOU FIBRE NETWORKS - All rights reserved

Supertek''s fiber optic spooling machines offer the perfect solution for efficient and precise processing of fiber optic cables. With their unique technology, precise control, and high speed, these machines

Supertek WLT

WINDING AND SPOOLING MACHINES Supertek WLT is a manufacturer and supplier of high-quality machines and precision-engineered products for the

WINDING TECHNOLOGY

Fiber cable production and flat wire handling Custom winding applications and high-speed production lines Built with German engineering expertise and designed for industrial versatility, Supertek

Wide Range of Precision Tubes | Highest Quality Tubing Products

Tubes available in stainless steel, nickel, titanium and zirconium alloys, seamless or welded in straight or coils. Our tubing products are of high precision and highest quality.

Filament winding tubes by SAVER Spa

SAVER S.p.A. is the global leader of production of filament winding tubes of aramid, polyester and glass fibres for electrical and industrial applications. The main
