How much does Shenzha fireproof cable tray cost

Overview

Fireproof Cable Tray Manufacturers & Suppliers Cable Tray manufacturer / supplier in China, offering Factory Direct Cable Management Channel Custom Firepro.

Key Takeaways

Shenzha fireproof cable trays typically cost between US$6 per piece and $25 per meter, depending on material, coating, and order quantity.

Estimated Pricing

Per Piece: Some fireproof powder-coated cable trays are available for around US$6 per piece, which may serve as a baseline for small-scale purchases or sample orders (Qiongkai, Made-in-China). Per Meter: Standard cable tray prices range from $2 to $25 per meter, influenced by material type (galvanized steel, stainless steel, aluminum, or plastic), coating (powder-coated, hot-dip galvanized), and tray design (ladder, perforated, or wire mesh).

Factors Affecting Cost

Material: Galvanized steel is common and cost-effective. Stainless steel is more expensive but highly corrosion-resistant. Aluminum is lightweight and moderately priced.

Plastic trays are cheaper but not suitable for heavy or high-heat applications. Coating and Finish: Powder coating adds durability and aesthetic options. Hot-dip galvanizing provides long-term corrosion protection but increases cost.

Pre-galvanized steel is cheaper but less durable outdoors. Tray Type: Ladder trays support heavy cables and cost more. Wire mesh or perforated trays are lighter and more affordable.

Order Quantity and Shipping: Bulk orders can reduce per-unit costs, while shipping and installation add to the total project expense.

Practical Considerations

For large projects, contacting suppliers directly for quotes is recommended, as prices can vary based on customization, length, and local shipping. Comparing Shenzha trays with other brands may help identify cost savings without compromising fireproof performance. Installation costs should also be factored in, as cable trays are generally faster to install than conduit systems, potentially reducing labor expenses.

In summary, while a single Shenzha fireproof cable tray may cost around US$6 per piece, project-scale pricing typically falls within $10–$25 per meter, depending on material, coating, and design choices.
