Installation Price of Ladder-Type Cable Trays

Overview

Cable Tray Price List | Electrical Works The cable tray price list are for hot dip galvanized ladder type cable tray. The price is based on standard length.

Key Takeaways

The cost of ladder-type cable tray installation typically ranges from $5 to $30 per meter for materials, with additional labor and installation costs depending on site conditions and complexity.

Material Costs

Ladder cable trays are available in various materials, each affecting the price: Steel (galvanized or hot-dip): $5–$25 per meter, widely used for general-purpose installations due to strength and affordability. Aluminum: $6–$30 per meter, lightweight and corrosion-resistant, ideal for outdoor or industrial environments.

FR

P (Fiberglass Reinforced Plastic): $10–$50 per meter, used in highly corrosive or chemical environments. The open ladder design reduces material usage compared to solid-bottom trays, making it more economical for large-scale installations.

Installation Costs

Installation costs vary based on labor rates, site conditions, and complexity: Labor: Skilled electricians or technicians are required, and wages vary by region. Site factors: Height of installation, accessibility, and routing complexity can increase costs. Fittings and accessories: Elbows, tees, and supports are priced per unit and add to the total cost.

Equipment and energy: Cutting, welding, and surface finishing may contribute to installation expenses. Typical installation involves reviewing approved shop drawings, preparing materials, verifying quality, and mounting trays with proper supports and spacing.

Cost Summary

For a standard ladder tray installation: Material: $5–$30 per meter depending on material and coating. Labor and installation: Can add $10–$20 per meter or more depending on complexity and location. Total estimated cost: Approximately $15–$50 per meter for a complete ladder tray installation, including materials, fittings, and labor.

Additional Considerations

Bulk orders may reduce material costs. Corrosion-resistant coatings (HDG, powder coating) increase upfront costs but improve longevity. Ladder trays allow easy cable access and ventilation, reducing long-term maintenance costs.

This estimate provides a practical range for budgeting ladder-type cable tray installations in commercial, industrial, or residential projects.
