Integrated Optical Cable for Broadcasting and Television

Overview

Fiber optic cables are essential for radio and TV broadcasting, facilitating reliable and high-bandwidth data transfer. Our cabling and connectivity product solutions and pre-terminated “Plug-and-Play” cable assemblies are best known for their superior strength, reliability, and data integrity—undergoing rigorous testing beyond industry standards used by other manufacturers. In Optral we manufacture cables with the best optical fibers in the market. Sensing & Monitoring Solutions based in. Optical Cable Corporation's broad range of fiber optic broadcast products is specifically designed to withstand the challenges for real-time transmission of high-definition broadcast signals. Our stadium and arena cables are optimized to. This sector requires optical cables for fixed and/or temporary communication between cameras and data management centers (mobile broadcast trucks). With OPTRAL cables for Broadcast spooled cables can be moved easily and they are made of high friction and crushing resistant materials.
