List of FBT optical splitter manufacturers

Overview

Typically, optical splitters are constructed using fused biconical taper (FBT) or planar lightwave circuit (PLC) technologies.

Key Takeaways

Leading FBT optical splitter manufacturers include Spring Optical, Tianyisc, Browave, Broadex Technologies, NTT Electronics, Henan Shijia Photons Tech, Wuxi AOF, Wooriro, FOCI Fiber Optic Communications, Hengtong Optic-Electric, and Sindi Technologies.

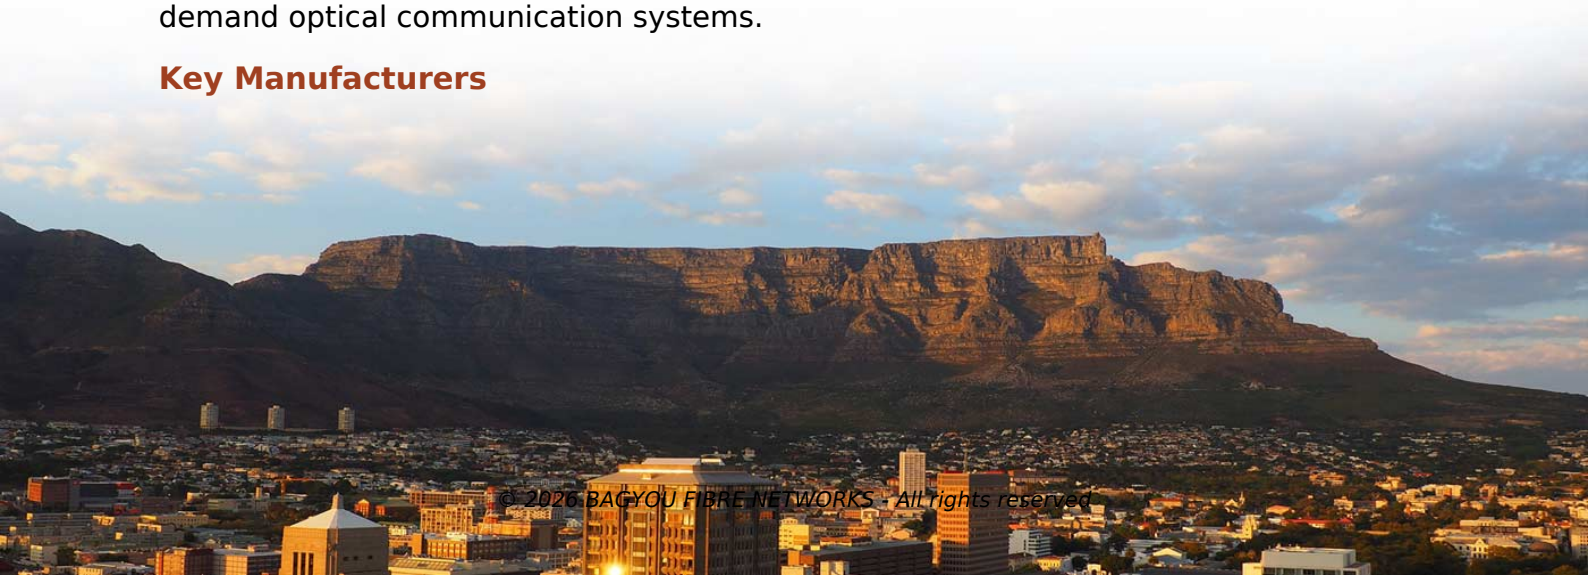

Overview of FB

T Optical SplittersFBT (Fused Biconical Taper) optical splitters are passive devices used to divide optical signals in fiber networks, particularly in FTTH, FTTx, GPON, and EPON systems. They are manufactured by fusing two or more optical fibers together and tapering them to create a gradient structure, allowing signal splitting with specific ratios.

FB

T splitters are cost-effective, simple to produce, and suitable for lower-cost, low-demand optical communication systems.

Key Manufacturers

© 2026 BAGYOU FIBRE NETWORKS - All rights reserved

Spring Optical: Offers a wide range of FBT couplers and PLC splitters for FTTH and PON networks, emphasizing low insertion loss, high stability, and long-term reliability. Tianyisc, Browave, Broadex Technologies, NTT Electronics Corporation (NEL): Recognized global players providing FBT optical splitters with diverse product portfolios and international distribution. Henan Shijia Photons Tech, Wuxi AOF, Wooriro, FOCI Fiber Optic Communications, Hengtong Optic-Electric, Sindi Technologies: These companies specialize in FBT splitters and related fiber optic components, offering products for both domestic and international markets.

T & S Communications, HYC Co., Ltd, Anfkom Telcom, Fibre2EU GmbH: Additional suppliers providing FBT splitters alongside PLC splitters, ensuring compatibility with various network architectures and connector types. ApplicationsFBT optical splitters are widely used in: FTTH and FTTx networks for distributing optical signals to multiple subscribers. Cable television networks to compensate for signal differences between users at varying distances.

Passive Optical Networks (PON) with bus topology, where uneven signal distribution is required.

Market Insights

The global FBT optical splitter market is growing steadily, driven by increasing demand for fiber optic networks and cost-effective solutions.

FB

T splitters are preferred in applications where low cost and simple manufacturing are prioritized over uniformity and low insertion loss, which are strengths of PLC splitters.

Conclusion

For procurement or partnership, companies like Spring Optical, Tianyisc, Browave, Broadex Technologies, NTT Electronics, and Henan Shijia Photons Tech are among the most prominent FBT optical splitter manufacturers. They provide a range of products suitable for FTTH, PON, and other fiber optic network applications, with options for customization and global distribution.

Top 100 Optical Splitter Manufacturers in 2026 | ensun

Typically, optical splitters are constructed using fused biconical taper (FBT) or planar lightwave circuit (PLC) technologies. FBT involves fusing and tapering two or more optical fibers, while PLC

Global FBT Optical Splitter Market Research Report 2023

Key manufacturers engaged in the FBT Optical Splitter industry include Tianyisc, Browave, Broadex Technologies, NTT Electronics Corporation (NEL), Henan Shijia Photons Tech, Wuxi AOF, Wooriro,

fbt optical splitter supplier: Best Deals & Verified Providers

What Are the Best FBT Optical Splitter Suppliers? Based on supplier data, product specifications, and key attributes, here is a comparative analysis of notable FBT optical splitter

18 Fiber Optic Splitter Manufacturers in 2026

This section provides an overview for fiber optic splitters as well as their applications and principles. Also, please take a look at the list of 18 fiber optic splitter manufacturers and their company rankings.

Global FBT Type Optical Splitter Supply, Demand and Key Producers,

Home > Report Categories > Electronics & Semiconductor > Global FBT Type Optical Splitter Supply, Demand and Key Producers, 2024-2030

Global FBT Optical Splitter Market 2025 by Manufacturers, Regions,

Chapter 2, to profile the top manufacturers of FBT Optical Splitter, with price, sales quantity, revenue, and global market share of FBT Optical Splitter from 2020 to 2025.

FBT Splitter, FBT Coupler Single Mode & Multimode

Fiberinthebox supply high quality FBT splitters, single mode couplers with single/double/three windows with competitive price to make your optical network system cost effective.

PLC Splitters vs FBT Splitters A Detailed Guide for 2025

Compare PLC Splitters and FBT Splitters for 2025. Learn about cost, performance, scalability, and which splitter suits your fiber optic network needs.

Top 100 Fiber Optic Splitter Suppliers in 2026 | ensun

© 2026 BAGYOU FIBRE NETWORKS - All rights reserved

T&S Communications specializes in manufacturing high-quality fiber optic splitters, including PLC splitters and FBT couplers, which enhance the flexibility and scalability of optical transport systems.

FBT vs PLC Splitters: A Comprehensive Comparison of Fiber Optic ...

FBT Splitter Technology: The Traditional Approach FBT splitters represent the traditional method of optical signal splitting. The manufacturing process involves physically fusing multiple

Understanding the Differences Between PLC and FBT Optical Splitters

Compare PLC and FBT optical splitter types to find the best fit for your network. Learn about signal uniformity, cost, and ideal applications.

FBT Splitter: The Cornerstone of Optical Signal Distribution

Split Ratio Precision: Early FBT splitters were limited in terms of split ratios. However, advancements in manufacturing techniques now allow for highly precise and customizable split

What is FBT Splitter?

In fiber optic networks, signal distribution is a critical function that ensures data can be efficiently transmitted to multiple endpoints. One of the key

FBT Splitter vs. PLC Splitter: What Are the Differences?

The differences between FBT splitter and PLC splitter lies in the working wavelength, splitting ratio, failure ratio, and price. All these differences are explored in this article.

Shop Beam Splitters & Passive Optical Splitters

As well as FBT splitters Fused Biconical Taper splitters, which are two or more pieces of optical fibers that are fused/tapered together fiber devices. Splitters are

FBT vs PLC Splitters: A 2025 Comparison for Fiber Optic Networks

Fiber optic networks rely on passive optical components to distribute signals efficiently. When it comes to splitters, two main technologies dominate: Fused Biconical Taper (FBT) and

The Comparative Analysis of PLC and FBT Optical Splitters

Currently, two principal types of optical splitters have emerged to address the challenges of optical signal distribution: the Planar Lightwave Circuit (PLC) splitter, which leverages optical

Title: Understanding FBT Splitters: A Cornerstone of Fiber Optic
