Malaysian Low-Voltage Cable Tray Manufacturer

Overview

Best 5 Cable Tray Manufacturers in MalaysiaThis guide introduces the top five cable tray manufacturers in Malaysia, highlighting their specialties, industr.

Key Takeaways

Top Malaysian manufacturers of low-voltage cable trays include Array Metal, EAE Group, Maple Precision, SRI, U-LI Group, and UMI/Sun Energy System, offering durable, standards-compliant solutions for industrial, commercial, and residential applications.

Leading Manufacturers

Array Metal Industries is a well-established manufacturer providing a wide range of cable trays, including ladder, perforated, and wire mesh types. Their products are designed for durability and performance in industrial and commercial applications, with a strong international distribution network covering Singapore, Australia, and the United States (Array Metal).

EA

E Group specializes in lightweight, easy-to-install cable trays with corrosion-resistant materials. They serve construction, commercial, industrial, and energy sectors, offering ladder, perforated, and wire mesh trays engineered for robust support systems (Apex Tray). Maple Precision focuses on heavy-duty cable trays, including galvanized and stainless steel options suitable for Malaysia's humid climate.

Their products are ideal for oil and gas, industrial, and infrastructure projects, emphasizing durability and ease of installation (Apex Tray).

SR

I manufactures high-quality cable trays and accessories with extensive customization options. Their solutions are designed for industrial facilities, power stations, and commercial buildings, meeting high safety and durability standards (Apex Tray). U-LI Group has been producing cable support systems since 1978, operating five manufacturing sites in Malaysia.

They offer perforated cable trays, cable ladders, trunking, wire baskets, and floor trunking, all compliant with international standards and suitable for medium to heavy-duty installations (U-LI Group).

UM

I Cable Support Solution / Sun Energy System provides metal cable ladders, trays, and trunking with robust protection and versatile customization. Their products are made from electro zinc galvanized steel, pre-galvanized steel, mild steel, and stainless steel, meeting NEMA and CSA standards for safety and performance (Sun Energy System).

Key Considerations

When selecting a Malaysian low-voltage cable tray manufacturer, consider: Material and corrosion resistance: Stainless steel or galvanized options for humid environments. Compliance with standards: NEMA, CSA, and other international certifications. Industry experience: Manufacturers with proven track records in industrial, commercial, or energy sectors.

Customization and support: Ability to provide tailored solutions and technical assistance for complex installations. These manufacturers collectively offer a comprehensive range of cable management solutions suitable for diverse applications, ensuring safety, durability, and regulatory compliance.
