Manufacturer of multi-hole aluminum alloy cable trays

Overview

Need lightweight, corrosion-resistant cable management? Discover leading aluminium cable tray manufacturers for industrial applications. Compare suppliers and get custom quotes today!

Key Takeaways

Leading manufacturers of multi-hole aluminum alloy cable trays include NewReach, ABB, EAE Electric, and MP Husky, offering lightweight, corrosion-resistant, and high-load cable management solutions. Key Manufacturers1.

New

Reach New

Reach produces aluminum cable trays designed for high loading capacity and durability. Their trays are made from high-performance aluminum alloys such as 6063, providing excellent corrosion resistance and thermal conductivity. The trays are lightweight, non-magnetic, and suitable for environments like data centers and industrial facilities.

New

Reach offers perforated designs that allow ventilation, reduce overheating, and simplify cable routing. Their products are engineered with a 1. 5 safety factor and can support additional concentrated loads, ensuring stability and long-term performance.

2.

ABB AB

B manufactures a wide range of cable tray systems, including perforated trays, cable ladders, and channel trays. Their production facilities in Canada and Saudi Arabia ensure local availability and rapid project support. ABB's aluminum trays are adaptable, allowing cables to enter or exit at any point, and are designed to minimize moisture buildup and reduce cable insulation damage.

They provide solutions for medium to ultra-heavy-duty installations, suitable for both new projects and refurbishments. 3.

EAE Electric EA

E Electric offers aluminum cable trays and ladders that combine high strength, flexibility, and lightweight design. Their trays are corrosion-resistant, fire-safe, and ideal for indoor and outdoor applications. The perforated aluminum trays allow heat dissipation, preventing cable overheating, and are suitable for dense cable transitions.

EA

E emphasizes easy installation and long-term durability, making their products suitable for industrial, commercial, and coastal environments. 4.

MP Husky M

P Husky provides certified aluminum cable tray systems that are lighter than steel alternatives, making installation easier and faster. Their trays are CSA-certified, UL-listed, and NEMA-compliant, ensuring safety and reliability.

While M

P Husky focuses on general aluminum cable tray solutions, their products are suitable for applications requiring lightweight, corrosion-resistant, and durable cable management.

Considerations for Selection

Material Grade: Aluminum alloys like 6063 offer high corrosion resistance and thermal conductivity. Load Capacity: Ensure the tray supports the required cable weight, including concentrated loads. Perforation Design: Multi-hole or ventilated trays improve airflow and reduce overheating.

Installation Environment: Consider indoor vs. outdoor use, exposure to saltwater, or industrial conditions. Compliance: Look for UL, CSA, or NEMA certifications for safety and quality assurance. These manufacturers provide reliable, durable, and efficient solutions for multi-hole aluminum alloy cable trays suitable for a wide range of industrial, commercial, and data center applications.

Top Aluminium Cable Tray Manufacturers | Durable Industrial Solutions

Need lightweight, corrosion-resistant cable management? Discover leading aluminium cable tray manufacturers for industrial applications. Compare suppliers and get custom quotes today!

Aluminum Cable Tray

Aluminum Cable Tray systems are lighter than steel cable tray and Certified CSA Cable Tray, UL listed, NEMA and certified. Because of their lighter weight aluminum cable trays are easier to install than

Top Aluminum Cable Tray Manufacturers | Durable Solutions for

Need reliable aluminum cable tray manufacturers? Discover verified suppliers offering corrosion-resistant trays for industrial use. Compare products and request quotes today!

Cable trays

Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project

Aluminum Alloy Cable Tray Manufacturer | Cable Management Systems

Our Aluminum Alloy Cable Tray is developed in-house with reference to the NEMA VE1-1979 Cable Tray Systems standard. Designed with simplicity and durability in mind, it offers outstanding corrosion

Multi Hole Cable Ladder | Cable Tray Manufacturer

We are a direct manufacturer specializing in cable tray production, operating five automated production lines and two powder coating lines to ensure stable capacity and consistent quality.

Aluminium Cable Trays | EAE Electric

The Aluminum Cable Ladder has a high loading capacity to manage dense cable transitions. Designed with a lightweight structural design, easy installation, and long-lasting corrosion resistance, the

653 Series Snake Tray Aluminum Cable Tray | Snake Tray

Snake Tray offers Aluminum Cable Trays to accommodate our customer''s needs for larger cable trays. Aluminum Cable Trays are a light weight for easier installation while offering a high loading capacity
