Manufacturer of stepped fiberglass cable trays

Overview

Wire Mesh Cable Tray and Ladder SystemsGangLong Fiberglass offers a range of cable-management solutions—stainless steel, aluminum, and FRP cable tray —back.

Key Takeaways

Leading manufacturers of fiberglass cable trays include MP Husky, Enduro Composites, ALOIS Composites, Oglaend System Group, FiberTech, Friedrichs, Hallas Fiberglass, L-com Global Connectivity, Cablofil, and Ideal Industries. Key Manufacturers and Their OfferingsMP Husky produces fiberglass cable trays with high strength-to-weight ratios, non-conductive and corrosion-resistant properties, suitable for offshore oil and gas, refineries, and laboratories. Their trays are available in polyester and vinylester resin systems and meet ASTM E-84 Class 1 Flame Rating and ASTM D-635 self-extinguishing requirements.

Enduro Composites offers FRP cable trays designed for extreme conditions, including chemical plants, oil refineries, and water treatment facilities. Their products are pultruded for durability, chemical resistance, and electrical safety.

ALOI

S Composites specializes in high-performance FRP products with exceptional corrosion resistance, ideal for harsh environments such as chemical plants and coastal installations. Oglaend System Group provides a complete portfolio of fiberglass cable management solutions, emphasizing safety, longevity, and ease of installation for industrial and international applications.

Fiber

Tech focuses on fiberglass reinforced polymer products for cable management, offering durable and lightweight solutions. Friedrichs manufactures trays designed to withstand harsh environments, suitable for chemical processing, wastewater treatment, and oil and gas industries. Hallas Fiberglass produces lightweight yet robust trays that meet rigorous industry standards, offering both off-the-shelf and custom solutions.

L-com Global Connectivity delivers high-strength fiberglass cable trays for data centers and telecommunications installations, with a focus on sustainability and performance. Cablofil emphasizes innovative cable management solutions, facilitating easier installation and maintenance while maintaining durability for industrial applications. Ideal Industries combines advanced materials with comprehensive installation options, continuously improving designs for industrial and commercial use.

Advantages of Fiberglass Cable Trays

Corrosion Resistance: Ideal for chemical, marine, and high-moisture environments.

Non-

Conductive & Non-Magnetic: Enhances electrical safety and reduces interference with sensitive equipment. Lightweight with High Strength: Easier installation and reduced transportation costs compared to steel. Customizable: Available in various sizes, shapes, and resin systems to meet specific project requirements.

These manufacturers provide reliable solutions for industrial, commercial, and specialized applications, ensuring durability, safety, and long-term performance.
