Manufacturers of fire-resistant cable trays in Pakistan

Overview

Leading Cable Tray manufacturer and supplier in Pakistan. We offer Perforated, Ladder, Wire mesh, and solid bottom trays at the best prices.

Key Takeaways

Alfazal Engineering, EPEPK, and Schneider Electric are among the top companies providing high-quality, fire-resistant cable trays in Pakistan.

Leading Manufacturers

Alfazal Engineering is widely recognized for its durable and reliable cable trays, offering ladder, perforated, and customized solutions with galvanized, stainless steel, and powder-coated finishes. Their products are engineered to handle heavy loads and harsh environments, making them suitable for fire-resistant applications in industrial and commercial projects.

EPEP

K manufactures a complete range of cable trays, including perforated, ladder, wire mesh, and solid-bottom types. They emphasize safety, long-term performance, and compliance with load and environmental standards, making their trays ideal for fire-prone or high-risk installations. Schneider Electric provides premium cable tray systems with fire-rated options, powder-coated and hot-dip galvanized finishes, and a comprehensive range including basket, ladder, and solid-bottom trays.

Their products are particularly suited for commercial buildings, hospitals, and manufacturing plants where fire safety is critical. Other Notable OptionsIES Manufacturing Pakistan offers ladder and perforated cable trays in galvanized iron, stainless steel, aluminum, and powder-coated finishes. Their trays are designed for industrial sectors like power generation, chemical processing, and petroleum, where fire resistance and durability are essential.

Panduit and Cooper B-

Line (Eaton) provide high-strength steel and aluminum trays with fire-resistant properties, suitable for data centers, industrial automation, and chemical industries.

Key Considerations

When selecting fireproof cable trays in Pakistan, consider: Material: Stainless steel, powder-coated steel, or FRP trays offer better fire resistance and corrosion protection. Tray Type: Ladder trays are ideal for industrial and solar projects, while perforated trays are suitable for indoor electrical wiring. Compliance: Ensure the manufacturer meets industry standards for fire safety and load capacity.

Customization: Some manufacturers provide tailored solutions for unique project requirements. For projects requiring high fire safety standards, Alfazal Engineering, EPEPK, and Schneider Electric are recommended due to their proven track record, quality materials, and fire-rated product options.
