Network fiber optic patch cord price

Overview

How Much Do Fiber Patch Cords Cost?

OEM & Bulk Pricing BreakdownUnderstand fiber patch cord pricing from a B2B perspective. Learn how OEM production, volum.

Key Takeaways

Fiber optic patch cords typically range from $3 to over $500 depending on type, length, and connector configuration.

Price Overview

Short single-mode or multimode patch cords (1–3 meters): Prices generally start around $3 to $15 for standard LC, SC, or ST connectors with simplex or duplex configurations, suitable for home or small office use (trueFIBER, Altex, Primus Cable). Medium-length cords (5–10 meters): Expect prices between $15 and $50, depending on fiber type (OM3/OM4 multimode or OS2 single-mode) and quality of connectors (Amazon, Newegg, Cables on Demand). Long or specialty cords (15–100 meters, armored, outdoor-rated, or MTP/MPO): Prices can range from $50 to over $500, especially for high-performance, low-loss, or multi-fiber configurations used in data centers or industrial applications (Grainger, trueFIBER, Cables on Demand).

Bulk packs or multi-packs: Buying in packs (e.g., 6-pack of 1–2 meter LC to LC cables) can reduce per-unit cost to $5–$10 per cable for standard multimode or single-mode cords (Amazon, Newegg).

Factors Affecting Price

Fiber Type: Single-mode (OS1/OS2) is generally more expensive than multimode (OM1/OM2/OM3/OM4) due to longer distance capability and lower attenuation. Connector Type: LC, SC, ST, and APC/UPC polish types influence cost; APC connectors often cost slightly more due to precision polishing. Cable Length: Longer cables increase material and manufacturing costs; prices scale roughly with length.

Special Features: Armored, outdoor-rated, low-smoke zero-halogen (LSZH), or ultra-low-loss cables are priced higher due to durability and performance specifications. Vendor and Brand: Prices vary by retailer and brand reputation; premium brands like Corning or Panduit may cost more than generic options.

Summary

For typical indoor networking needs, 1–3 meter LC or SC multimode patch cords can be purchased for $3–$15, while longer or high-performance single-mode cords for enterprise or data center use may cost $50–$500+. Bulk purchases and multi-packs can reduce per-unit cost, and selecting the appropriate fiber type, connector, and cable rating is essential for balancing performance and budget.
