Non-magnetic cable tray manufacturer

Overview

FRP Cable Tray | Cable Tray Support The support strength of our FRP cable trays is equal to or even higher than that of metal cable trays, while retaining.

Key Takeaways

Leading manufacturers of non-magnetic cable trays include T&B, EPP Composites, MP Husky, and HDmann, offering FRP/GRP trays that are corrosion-resistant, non-conductive, and suitable for harsh industrial environments. Key Manufacturers and Products1. T&B® Cable Tray T&B produces nonmetallic cable trays made from glass fiber-reinforced plastic (FRP) using pultrusion technology.

These trays are non-conductive, non-magnetic, and corrosion-resistant, ideal for offshore oil, gas, mining, and fertilizer industries. They meet ASTM E-84 Class 1 flame rating and ASTM D-635 self-extinguishing requirements, with a resin-rich surface for UV resistance. Their strength-to-weight ratio surpasses steel, making them lightweight yet strong.

2.

EPP Composites EP

P Composites manufactures FRP cable trays suitable for industrial and commercial facilities. Their trays are lightweight, corrosion-resistant, and non-conductive, available in multiple configurations such as ladder, solid-bottom, perforated, channel, wire mesh, and trough. They provide excellent fire and UV resistance, require no grounding, and are compatible with FRP covers, couplers, drops, hangers, and support hardware.

3.

MP Husky M

P Husky offers fiberglass cable trays designed for harsh environments like offshore oil and gas. Their trays are non-magnetic, non-conductive, and corrosion-resistant, with a strength-to-weight ratio exceeding steel. Available in polyester and vinylester resin systems, they meet ASTM E-84 Class 1 flame rating and ASTM D-635 self-extinguishing standards.

The trays are lightweight, easy to install, and reduce transportation costs. 4.

H

Dmann Cable Management System H

Dmann produces FRP cable trays engineered for electrical and instrumentation installations. Their trays are corrosion-resistant, non-magnetic, and non-conductive, available in ladder and solid-bottom designs with multiple resin options. They are lightweight, reduce installation hazards, and maintain high load capacity.

Custom colors and protective layers for UV and corrosion resistance are also available.

Considerations for Selection

Material: FRP/GRP for non-magnetic and corrosion resistance. Configuration: Ladder, solid-bottom, perforated, wire mesh, or channel depending on cable type and load. Environmental Resistance: UV, chemical, and saltwater exposure.

Compliance: ASTM E-84 and ASTM D-635 for fire safety. Accessories: Covers, couplers, hangers, and support hardware for complete installation. These manufacturers provide reliable solutions for non-magnetic cable management in demanding industrial and offshore applications, ensuring safety, durability, and long-term performance.

FRP Cable Tray | Cable Tray Support

The support strength of our FRP cable trays is equal to or even higher than that of metal cable trays, while retaining the non-conductive, non-magnetic and corrosion-resistant properties of FRP, which

Fiberglass Cable Tray

© 2026 BAGYOU FIBRE NETWORKS - All rights reserved

Our Fiberglass Cable Tray gives you the load capacity of steel, plus the inherent characteristics afforded by Pultrusion Technology: non-conductive, non-magnetic, and corrosion-resistant.

Fiberglass Cable Trays | Fiberglass Grating | Uniflex

Our fiberglass cable tray gives you the load capacity of steel plus the inherent characteristics afforded by our Protrusion Technology: non-conductive, non

Manufacturer of GRP/FRP Pipe & Chemical Equipment by ...

FRP Cable Trays are non-metallic support systems for routing electrical and data cables in industrial and commercial facilities. Made of fiberglass-reinforced plastic, FRP trays are extremely corrosion

Cable Tray Systems

Our cable tray systems securely hold and protect cables and come in many models and sizes, solid bottom and ventilated.

Cable Tray, Cable Bus, Wire Mesh Cable Trays | MP Husky

MP Husky manufacturers Cable Tray Systems, Cable Bus System, Wire Mesh/Wire,Cable Tray, & Cable Management Systems. Our cable support systems & power distribution are CSA UL NEMA

GRP Cable Trays | Corrosion-Resistant & Non-Conductive | Bonn Group

Discover durable and lightweight GRP Cable Trays from Bonn Group – ideal for corrosive, outdoor, and industrial environments.

T&B® Cable Tray

T&B nonmetallic cable tray systems are manufactured from glass fiber-reinforced plastic shapes that meet the ASTM E-84 Class 1 flame rating and self-extinguishing requirements of ASTM D-635. A

Corodex Trading | Unex

Unex product portfolio includes non-metallic thermoplastic Cable Trays, Cable Ladders as well as Cable Ties, suitable for both indoor and harsh outdoor environments.
