Pakistan Low-Voltage Complete Sets of Equipment

Overview

powersolutions.pkWith years of proven expertise, the company specializes in designing, manufacturing, and delivering high-quality power distribution system.

Key Takeaways

Pakistan offers a wide range of complete low-voltage equipment sets, including switchgear, distribution panels, motor control centers, and automation solutions from leading manufacturers and suppliers.

Leading Manufacturers and Suppliers

Lineman Pvt. Ltd is a prominent provider of integrated electrical power solutions, offering low-voltage switchgear, industrial automation, cable management systems, and complete testing services. They are an official partner of Siemens for LV type-tested switchgear and provide installation, commissioning, and on-site testing for industrial and commercial projects.

GEP

L specializes in WAPDA-approved LV and MV switchgears, power distribution panels, and motor control centers. They provide customized engineering solutions and have a legacy of manufacturing high-quality electrical equipment since 1983. Shahid International acts as a dealer and importer of low-voltage switchgear, industrial automation products, wiring, and home automation solutions, offering technical support and services across Pakistan.

Switchgear Solutions manufactures and supplies low-voltage switchgear, motor control centers, soft starters, VFDs, and special-purpose panels. Their products cater to banks, hospitals, schools, commercial buildings, and industrial sectors, with options for indoor and outdoor installations.

UNION STABILIZER

S provides complete low-voltage devices, including voltage stabilizers with digital meters, circuit breakers, and integrated protection circuits, available in Lahore and other regions. Product Range and ServicesLow-Voltage Switchgear: Indoor/outdoor, cubical or compartment type, fixed or withdrawable. Motor Control Centers (MCC): Freestanding design, easy installation and maintenance.

Power Distribution Panels: Customized for industrial and commercial applications. Automation Solutions: Soft starters, VFDs, and industrial automation panels. Testing and Commissioning: On-site testing for transformers, generators, circuit breakers, and protection relays.

Cable Management Systems: Cable trays, ladders, and hanging arrangements.

Key Considerations

Certifications: Many suppliers are WAPDA-approved and follow international standards. Customization: Products can be tailored to client specifications for industrial, commercial, or residential projects. Availability: Suppliers operate nationwide, with manufacturing and service facilities primarily in Lahore.

Support: Technical support, installation, and maintenance services are widely offered. For businesses or projects in Pakistan, these companies provide complete low-voltage equipment sets with reliable quality, compliance with standards, and comprehensive after-sales support, making them suitable for diverse electrical infrastructure needs.
