Price List of Fiber Optic Cable Junction Boxes

Overview

Find your fiber optic junction box easily amongst the 64 products from the leading brands (HS, LAPP, Cahors, ...) on DirectIndustry, the industry specialist for your professional purchases.

Key Takeaways

Fiber optic junction boxes typically range from $10 to $200 or more, depending on type, capacity, and installation environment.

Price Overview

Small indoor wall-mount boxes for residential or office use generally cost $10–$50. These are compact enclosures suitable for low fiber counts and indoor installations, often made from flame-retardant ABS plastic and designed for easy cable management and labeling (Amazon, eBay). Outdoor or weatherproof boxes with IP65 or higher ratings, UV-resistant polycarbonate, or corrosion-proof aluminum construction typically range from $50–$150.

These are designed to protect fiber splices from moisture, dust, and temperature fluctuations, suitable for aerial or underground installations (Alibaba, Made-in-China). High-capacity or data center floor-mounted enclosures supporting hundreds to thousands of fibers can cost $150–$200+, depending on size, material, and additional features like strain relief, routing guides, and color-coded ports for efficient cable management (Alibaba, Made-in-China).

Factors Affecting Price

Material and Durability: Outdoor boxes made from aluminum or high-grade polycarbonate are more expensive than indoor ABS plastic models. Capacity: Boxes supporting more fibers or multiple splice trays cost more. Protection Level: IP65 or higher waterproof ratings increase cost.

Installation Type: Specialized enclosures for aerial, underground, or high-density data center applications are priced higher due to design complexity. Brand and Supplier: Wholesale purchases from Alibaba or Made-in-China may offer lower per-unit prices, while retail platforms like Amazon or eBay may include shipping and convenience costs.

Practical Tip

When selecting a fiber optic junction box, consider environmental exposure, fiber count, and maintenance accessibility. Investing in a slightly higher-priced, durable, and well-managed enclosure can reduce long-term network downtime and maintenance costs (Alibaba). Overall, prices vary widely, but for most standard applications, expect to pay $10–$150 for typical indoor/outdoor boxes and $150–$200+ for high-capacity or specialized enclosures.
