Price list for fiber optic receiver boxes for sale

Overview

Fiber Optic Wall Mount Box with LC Couplers for Single Mode & Multimode Fiber Optic Cable. | Fiber Box Enclosure for MPOE''s, Network Rooms, and IDF Rooms.

Key Takeaways

Fiber optic receiver boxes typically range from $10 to over $200 depending on specifications and supplier. Fiber optic receiver boxes are available from multiple online retailers and electronics distributors.

On Digi

Key, prices vary based on data rate, voltage supply, and connector type, with basic discrete receivers starting around $10–$50 and higher-performance models costing more. Mouser Electronics also offers a wide selection, with prices generally in a similar range, often including datasheets for technical specifications. For consumer or small-scale applications, Amazon lists fiber optic receivers and transmitter-receiver kits, with prices typically ranging from $20 to $150, depending on features and brand. eBay provides both new and used options, sometimes offering deals under $30, with fast shipping available for many items.

Factors Affecting Price

Data rate: Higher-speed receivers cost more. Connector type: SC, ST, FC, SMA, or TOSLINK connectors can influence cost. Voltage and current requirements: Industrial-grade receivers with wider voltage ranges are more expensive.

Included features: Some boxes include built-in amplifiers or transceivers, increasing the price.

Buying Tips

Compare specifications carefully to ensure compatibility with your fiber optic network. Check if the receiver is part of a transmitter-receiver pair, as some systems require matched components. Consider supplier reliability and shipping options, especially for industrial or high-speed applications.

Overall, expect to pay between $10 and $200 for a fiber optic receiver box, with most consumer-grade units falling in the $20–$100 range.
