Price of 45-degree chamfered cable tray support

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

The price of a 45-degree cable tray support varies by size, material, and supplier, typically ranging from £20 to £100 per unit in the UK.

Supplier Examples and Pricing

Legrand SRFB15045G: A flat 45° bend for 150mm heavy-duty Swift Cable Tray systems, made of hot-dipped galvanised steel. Pricing is available on request from Tradesparky, with free next working day delivery for orders over £150 ex.

VA

T, and a delivery charge of £9. 95 ex.

VA

T for smaller orders.

AS

P 45° Turn Bend Transition Tray: Available in widths of 12", 18", and 24" with standard depths of 4" or optional 6". Covers and supports are sold separately, and pricing depends on width and depth.

Midfix Medium-

Duty 45° Bends: Available in widths from 50mm to 750mm. Pricing varies by width and material, typically in the range of £20–£100 per unit depending on specifications.

Factors Affecting Price

Material: Galvanised steel, stainless steel, aluminium, or fibreglass (FRP/GRP) affect cost. Stainless steel and fibreglass are generally more expensive. Width and Depth: Larger trays or deeper bends increase material usage and cost.

Load Rating: Heavy-duty bends designed for industrial applications are priced higher than medium-duty options. Delivery and Location: Some suppliers offer free delivery above a certain order value, while remote areas may incur additional charges. For accurate pricing, it is recommended to contact suppliers directly with the required tray width, depth, and material.

This ensures the quote reflects current stock, delivery options, and any bulk discounts.
