Price of 45-degree incline bend in cable tray

Overview

Legd SRFB15045G Bend Flat 45Deg 150mmThe Legrand SRFB15045G is a flat 45° bend for 150mm SRF, heavy duty Swift Cable Tray CleanTray 45-Degree Elbows for 45.

Key Takeaways

The price of a 45-degree cable tray bend varies depending on size, duty rating, and material, typically requiring a direct quote from suppliers. Overview of 45° Cable Tray Bends45-degree bends are used to change the direction of cable trays smoothly while maintaining structural integrity and cable capacity. They are available in light, medium, and heavy-duty ratings and are commonly made from hot-dipped galvanised (HDG) steel for durability and corrosion resistance.

Sizes range from 50mm to 750mm widths, with standard options like 100mm and 150mm being widely used.

Factors Affecting Price

Duty Rating: Heavy-duty bends cost more than medium or light-duty due to thicker steel and higher load capacity. Width and Size: Larger tray widths (e.g., 150mm or 300mm) increase material costs. Material and Finish: HDG steel is more expensive than powder-coated or plain steel options.

Supplier and Quantity: Bulk orders or trade pricing can reduce per-unit cost, while single orders may include delivery fees.

How to Obtain Pricing

Direct Supplier Contact: Many suppliers, such as Direct Channel, Armorduct, and Tradesparky, recommend calling for bulk or trade pricing. Online Product Listings: Some websites provide product details but may not list prices online; requesting a quote ensures accurate cost for your specific size and duty rating. Delivery Considerations: Orders under a certain value may incur shipping fees, and delivery times vary by location.

Example Suppliers

Direct Channel U

K: Offers 100mm heavy-duty HDG 45° bends with fast UK delivery. Armorduct Systems: Provides medium-duty flat 45° bends in standard and bespoke sizes. Tradesparky (Legrand SRFB15045G): 150mm heavy-duty flat 45° bend with HDG finish and integral coupling tabs.

Midfix: Medium-duty bends available in widths from 50mm to 750mm. Recommendation: Contact the supplier directly with your required size, duty rating, and quantity to get an accurate price quote, as online listings often do not include exact costs.
