Deformation in cover plates can occur in HDGAF steel during manufacturing, which may slightly affect pricing.

### Additional Considerations

Ensure the cover plate matches the tray height and width for proper fit. For outdoor or corrosive environments, stainless steel or coated steel covers are recommended. Some suppliers offer custom lengths (5–12 feet) and optional features like hinged or snap-on covers for easier cable access.

By selecting the appropriate size, material, and type, you can ensure both durability and safety while staying within the typical price range of ₹16–₹30 per piece for standard cable tray cover plates in India.
