Key Takeaways

Cable tray supports typically range from $1 to $35 per unit depending on type, material, and supplier. Price OverviewB2C Retail Prices: For small-scale purchases, cable tray supports such as hanging clamps, clips, and bars are priced between $15 and $34 per piece. These are suitable for home, office, or light industrial applications.

B2

B Wholesale Prices: Bulk purchases from suppliers like Alibaba or industrial distributors can range from $0. 80 to over $76 per unit, depending on material (steel, stainless steel, aluminum, or fireproof FRP) and size. Bulk pricing is more cost-effective for large construction or industrial projects.

McMaster-Carr Options: Supports such as hanging bars, clamps, and slotted strut channels are available with zinc plating for corrosion resistance. Prices vary by size and load capacity, supporting up to 280 lbs per foot when spaced every 8 feet.

Material and Type Considerations

Steel or Stainless Steel: Durable and suitable for industrial environments; stainless steel offers higher corrosion resistance. Galvanized Supports: Hot-dip galvanized supports are common for ladder-type cable trays and provide moderate corrosion protection. Wire Mesh or Perforated Supports: Lightweight and flexible for routing cables in curves, slopes, or tees.

Installation Accessories

Hanging Clamps and Clips: Used to suspend trays from threaded rods; prices depend on rod size and material. Threaded rods and nuts are usually sold separately. Support Brackets and Plates: Wall or ceiling-mounted supports for mechanical stability; pricing varies by load rating and material.

Summary

For a sample purchase, expect to pay $15–$35 per support for retail units, while bulk industrial orders can reduce the per-unit cost to under $1–$5 depending on material and quantity. Material choice, load capacity, and installation type significantly influence the final price. For precise budgeting, it is recommended to request quotes from suppliers like McMaster-Carr, Alibaba, or local distributors.
