Price of wiring cabinets

Overview

Amazon.com: Electrical CabinetVEVOR 6U Wall Mount Network Server Cabinet, 15.5" Deep, Server Rack Cabinet Enclosure, 200 lbs Max. Ground-Mounted Load Capa.

Key Takeaways

Electrical wiring cabinets typically range from £50 to over £1,000 depending on size, material, and protection rating.

Overview of Pricing

Small Wall-

Mounted Cabinets: Compact cabinets for home or small commercial use, often made of steel or ABS plastic, generally cost £50–£200 on platforms like Amazon and eBay. These are suitable for basic electrical distribution or network equipment. Medium Industrial Cabinets: Sheet steel or ABS enclosures with IP65 protection for dust and water resistance, commonly used in industrial settings, range from £150–£500 depending on dimensions and features such as removable mounting plates, lockable doors, and ventilation.

Large or High-

End Professional Cabinets: Modular distribution or control cabinets from brands like Schneider Electric and Legrand, designed for complex industrial or commercial installations, can cost £500–£1,500 or more. These often include DIN rails, modular cable ducts, high mechanical robustness, and fire resistance.

Factors Affecting Price

Material: Steel cabinets are more robust and suitable for industrial environments, while ABS plastic cabinets are lighter, corrosion-resistant, and cost-effective for damp or outdoor areas. Size and Capacity: Larger cabinets with more internal space for mounting plates, DIN rails, and electrical components are more expensive. Protection Rating (IP Rating): Cabinets with higher IP ratings (IP65–IP67) for dust and water protection are priced higher due to enhanced durability.

Brand and Certification: Professional brands like Schneider Electric and Legrand offer certified cabinets compliant with IEC and EN standards, which increases cost but ensures reliability and safety. Accessories: Lockable doors, ventilation kits, and modular mounting options can add to the overall price.

Buying Options

Online Retailers: Amazon and eBay offer a wide range of small to medium cabinets with competitive pricing and delivery options. Industrial Suppliers: McMaster-Carr and Ekabel24 provide specialized industrial cabinets with same-day or next-day delivery, suitable for professional applications. Professional Electrical Distributors: One-Elec stocks high-end cabinets from Schneider Electric and Legrand, ideal for commercial and industrial projects requiring certified enclosures.

In summary, prices vary widely based on size, material, protection, and brand, with small cabinets starting around £50 and professional industrial cabinets exceeding £1,000. Choosing the right cabinet depends on the intended application, environmental conditions, and required safety standards.
