Price range of genuine cable tray supports

Overview

Tray Supports. The Largest Variety Shop multiple tray stands of all sizes and brands at the best price. With a wide range of options. Cable Tray Accessorie.

Key Takeaways

Cable tray supports typically range from $2 to $25 per meter, depending on material, type, and finish.

Price Range and Factors

The average price of cable tray supports varies widely based on material, coating, and design. Common materials include galvanized steel, stainless steel, aluminum, and plastic, with galvanized steel being the most cost-effective for durability, stainless steel costing more due to corrosion resistance, and aluminum being lightweight but pricier than steel. Plastic supports are budget-friendly but unsuitable for heavy loads.

The type of tray also affects cost: ladder trays are more expensive due to their load-bearing capacity, while wire mesh or perforated trays are cheaper and suitable for lighter cables. Coatings such as hot-dip galvanization (HDG) increase durability and cost, whereas pre-galvanized or powder-coated options are less expensive but may offer lower longevity in harsh environments.

Market Insights

Globally, the cable tray supports market is growing, with a market size of USD 1. 25 billion in 2024, projected to reach USD 2. 10 billion by 2033, reflecting a CAGR of 6.

1%. This growth is driven by industrialization, urbanization, and increasing demand for organized cable management in commercial, industrial, and residential projects.

Practical Pricing Examples

Standard hot-dip galvanized ladder tray supports: Prices are often calculated per piece or per unit, with standard lengths around 2. 4 meters. Per-meter pricing: Depending on material and type, prices range from $2 to $25 per meter, with bulk orders potentially reducing costs.

Installation and labor costs: These vary by region and can significantly affect the total project cost.

Summary

The real price of cable tray supports depends on material, type, coating, and order quantity. For budgeting purposes, expect $2–$25 per meter, with ladder trays and HDG finishes at the higher end, and wire mesh or plastic supports at the lower end. Bulk procurement and local labor costs can further influence the final price.
