Qatar Explosion-proof Distribution Box Models and Specifications

Overview

Ex ATEX Explosion Proof (distribution cabinets) 7 basic enclosure sizes Enclosures can be combined (modular system) Available as completely fitted and wire.

Key Takeaways

Explosion-proof distribution boxes in Qatar are available in ATEX and IECEx-certified models, suitable for Zones 1, 2, 21, and 22, with options from suppliers like Electron Qatar, Magnus, Bushtorm, and WAROM.

Key Models and Suppliers

Electron Qatar offers Ex ATEX distribution cabinets with a 3-year warranty, designed for safe operation in hazardous areas. Magnus Qatar provides a range of control units and enclosures including SKX 12, SKX 15, SKX 16I, SKX 17, and SKX 20I models, made from GRP or AISI 316L stainless steel. These are designed for explosion-protected applications and can be customized for specific industrial needs.

Bushtorm supplies ATEX junction boxes made from low copper content aluminum alloy with stainless steel screws, RAL 7035 epoxy coating, and neoprene gaskets. These boxes are suitable for housing fuses, relays, disconnectors, transformers, and analog/digital instruments, and are designed for Zones 1, 2, 21, and 22.

WAROM Technology MEN

A offers a wide range of explosion-proof distribution boxes and enclosures, along with control equipment, motor switchgear, and cable glands. Their products are customizable to meet client-specific requirements and comply with international safety standards.

Features to Consider

Certification: Ensure ATEX or IECEx certification for compliance in hazardous areas. Zone Classification: Choose boxes rated for Zone 1, 2, 21, or 22 depending on the environment. Material: Options include GRP, aluminum alloy, or stainless steel (AISI 316L) for corrosion resistance and durability.

Customization: Many suppliers offer reinforced doors, lockable latches, gland plates, and internal component configurations. Environmental Protection: Look for epoxy coatings, neoprene gaskets, and robust construction to withstand harsh conditions.

Applications

These explosion-proof distribution boxes are widely used in oil and gas, petrochemical, marine, and mining industries in Qatar. They protect electrical equipment from sparks or internal explosions, ensuring safety and continuous operation in hazardous environments. For procurement, it is recommended to contact local suppliers like Electron Qatar, Magnus, Bushtorm, or WAROM to discuss specific models, certifications, and customization options suitable for your industrial application.
