Regular Electrical Cable Tray and Support Supplier

Overview

Cable trays Cable trays Discover a comprehensive range of high-quality cable trays and cable ladders at ekabel24.com – the reliable choice for safe, organi.

Key Takeaways

Top suppliers of electrical cable trays and support systems include Ekabel24, Shielden, Eurostrut, Eurotray, and SFSP, offering a wide range of materials, designs, and standards-compliant solutions. Key Suppliers and OfferingsEkabel24 provides a comprehensive range of cable trays, ladders, and trunking systems suitable for power, data, and control cables. Their products include hot-dip galvanized steel, stainless steel, and halogen-free plastic systems, all compliant with DIN EN 61537 and international standards.

They cater to industrial facilities, construction projects, and renovation works, offering open and ventilated designs for easy access and future expansion. Shielden specializes in durable cable tray systems made from stainless steel, galvanized steel, aluminum, and fiberglass-reinforced plastic (FRP/GRP). They offer ladder trays, perforated trays, wire mesh trays, solid bottom trays, and channel trays, suitable for industrial plants, commercial buildings, offshore platforms, and data centers.

Shielden emphasizes corrosion and fire resistance, custom solutions, and easy installation. Eurostrut focuses on strong and durable cable trays made of hot-dip galvanized or stainless steel, suitable for indoor and outdoor applications. Their trays are available in various widths, heights, and configurations, including distribution trays, cable routes, and NATO-type models.

Eurostrut highlights fast installation, organized cable routing, and reduced overheating risk. Eurotray offers cable management systems with trays, mounting supports, connection parts, and fittings designed for heavy cable loads. Their solutions are ideal for vertical applications, data centers, food manufacturing plants, and industrial hygiene-sensitive environments.

Eurotray also provides turnkey solutions, including profiles and fasteners for low, medium, and high voltage cables.

SFS

P manufactures cable trays and accessories in steel, stainless steel, and aluminum, compliant with BS EN 61537: 2023, NEMA, and international cabling standards. They provide pre-galvanized, hot-dip galvanized, and aluminum trays in various thicknesses, emphasizing quality assembly, speed of installation, and cost efficiency. Considerations for Choosing a SupplierMaterial Selection: Choose based on environment (indoor, outdoor, corrosive, or high-temperature areas).

Tray Type: Ladder, perforated, wire mesh, or solid bottom depending on cable type and load. Standards Compliance: Ensure products meet DIN, IEC, BS EN, NEMA, or local regulations. Support Accessories: Include mounting brackets, connectors, and suspension systems for secure installation.

Customization & Scalability: Suppliers offering tailored solutions can accommodate future expansions or unique project requirements. These suppliers provide reliable, standards-compliant cable tray systems and support solutions suitable for a wide range of electrical installations, ensuring safety, durability, and efficient cable management.
