# Singapore Handheld Relay Protection Tester

## Overview

High-power, High-precision, Multi-functional. KFA310 has been designed with a compact interior, similar in size to an iPad, Powered by batteries.

## Key Takeaways

Handheld relay protection testers like the Kingsine KFA310 and PRE-431S Pro are compact, high-precision devices widely used in Singapore for substation and field relay testing. Key Models and Features1. Kingsine KFA310 Mini Handheld Protection Relay TesterCompact and portable (iPad-sized, 3.

7 kg) with a 7-inch LED touch screen. Supports 6 current channels and 4 voltage channels, suitable for overcurrent, undervoltage, differential, and distance protection schemes. Features automatic test sequencing, harmonic injection, and IEC 61850 GOOSE/SMV support, enabling detailed validation of protection schemes.

High precision output, capable of continuous operation with 3x10A conditions, and easy plug-and-play maintenance. Available for rental in Singapore, including optional on-site service by certified engineers. 2.

PRE-431S Pro Hand-held Relay Test SystemLightweight at 3. 2 kg with an internal battery. Designed for three-phase testing in electrical distribution substations, renewable power stations, and industrial applications.

Equipped with three current and four voltage sources and a versatile measurement interface via an LCD touch screen. Suitable for testing electromechanical, static, numerical, and self-powered relays. 3.

Other Options in SingaporeSMRT46 and SMRT410D: Multipurpose, field-portable testers for electro-mechanical, solid-state, and microprocessor-based relays. PAM420: Designed for primary injection testing of protective relay equipment and circuit breakers. SVERKER750/780: Advanced relay test sets with familiar control layouts for engineers.

Local suppliers like SL Power Engineering provide a range of relay testers, current probes, and IEC 61850 testing software for low, medium, and high voltage systems.

### Applications

Commissioning and maintenance of substations and generator power systems. Testing of protection relays including electromechanical, static, numerical, and self-powered types. Validation of overcurrent, undervoltage, differential, and distance protection schemes.

Field and laboratory testing in industrial, marine, and renewable energy environments.

### Availability in Singapore

The Kingsine KFA310 is available for rental with calibration and optional on-site support. Other models like SMRT46, SMRT410D, and PAM420 require direct contact with suppliers such as CETM Singapore (+65 6292 5161) for purchase or rental inquiries. Suppliers like SL Power Engineering offer wholesale and specialized testing equipment for local utility and industrial applications.

These handheld relay protection testers provide portability, high precision, and compliance with international standards, making them ideal for engineers and contractors performing relay testing and protection validation in Singapore.

We are a premium distributor of high-quality test and measuring equipment in Singapore. We offer a wide range of test equipment brands and services from comprehensive product consulting to training

Portable relay tester PRT-MS1

Portable relay test system designed to facilitate rapid verification of relay condition. The system is battery powered (lasts 8 hours standard use), and allows the

Shop Portable Relay Tester at Better Price Online | Lazada Singapore

Buy Portable Relay Tester and more at the best deals and lowest prices online. Check out products from top-rated brands and sellers at Lazada now.

Protective Relay Test Sets for Rent | TRS-RenTelco

Protective Relay Test Sets provide you with the capability to test virtually any relay, from simple overcurrent relays to complex three-phase, microprocessor-based relays requiring phase shifting

sl power engineering singapore

We specialise in the wholesale of electrical testing equipments, marine class approved switchboard meters, metering transformers and protection relays for low, medium and high voltage power systems.

PRE-431S pro Hand-held Relay Test System

Overview The PRE 431S pro Hand-held Relay Test System weighs just 3.2kg and battery inside.The tester also is the engineer''s ultimate toolbox that addresses

Protection Testing – TESIENT – Protection Relay Test Set

Solutions for Power Industry Testing Protection Relay Test Wide range of solutions for secondary injection testing, protection relay testing and IEC61850 testing in digital substations.

Kingsine''s Relay Protection Tester for Protection Testing

A relay protection tester is a device used to test and verify the performance of relay protection devices in power systems. One of its core functions is protection

Three Phase Handheld Relay Protection Test Equipment Price

HZJB-450 handheld relay protection tester is in the secondary operation and maintenance work with debugging means to focus on checking the circuit environment of a new generation of independent

Protection relay testing device, Protection relay test

*© 2026 BAGYOU FIBRE NETWORKS - All rights reserved*

Find your protection relay testing device easily amongst the 72 products from the leading brands (Lumibird, SIEMENS, Huazheng, ...) on DirectIndustry, the

3 Phase Protection Relay Tester, Relay Test Set

3 phase protection relay test set for industrial control computer, with 110V and 220V dedicated adjustable DC power output, 2 USB ports and RS232 porthigh-tech

Huazheng Electric Digital Portable Handheld Three

Find out all the details about huazheng electric digital portable handheld three phase relay protection tester $14807. Get a wide variety of China wholesale three

Handheld Secondary Relay Set: My Real-World Experience

Handheld six-phase relay protection test kits offer accurate fault simulation and stable performance suitable for diverse relay types, validated through real-world testing in extreme environmental

Hertz Hzjb-430 Three Phase Handheld Relay Protective Secondary

HZJB-430 handheld relay protection tester is mainly used in power grid companies, power plants, electric construction companies, comprehensive security manufacturers, petrochemical companies,

Feeder Protection Relays Testing | Generator

AET provides a comprehensive overview of feeder, transformer protection relay testing, electromagnetic relay testing, generator protection relays.

Hertz Hzjb-430 Digital Portable Handheld Three Phase Relay Protection ...

HZJB-430 handheld relay protection tester is mainly used in power grid companies, power plants, electric construction companies, comprehensive security manufacturers, petrochemical companies,
