Types and Prices of Galvanized Fireproof Cable Trays

Overview

Fireproof cable tray available for wholesale, starting at $0.32 to $12. Minimum order quantity is 10 units. Hot dip galvanized, custom perforated, and anodized options.

Key Takeaways

Galvanized fireproof cable trays typically range from $20 to $150 per 2. 4-meter section depending on material, duty rating, and finish. Pricing OverviewHot-Dip Galvanized Ladder Type Cable Trays: Standard 2.

4-meter lengths are commonly priced around $20–$50 for light-duty trays, with medium and heavy-duty trays costing $50–$150 per section depending on width and load capacity ( ).

Through-

Type or Covered Galvanized Trays: These are often used in industrial or high-humidity environments and may cost more due to additional material and fireproofing features ( ). Fittings and Accessories: Elbows, tees, reducers, and covers are priced per piece, typically ranging from $5 to $50 depending on size and complexity ( ).

Factors Affecting Price

Material Type: Carbon steel with hot-dip galvanization is standard for durability and fire resistance. Stainless steel (304 or 316) offers higher corrosion resistance but comes at a higher upfront cost ( ).

Aluminum or FR

P trays are lighter and easier to install but may be more expensive in corrosive environments ( ). Duty Rating: Standard Duty: Supports 50–100 kg/m, suitable for offices and light commercial use. Medium Duty: Supports 100–150 kg/m, common in hospitals and data centers.

Heavy Duty: Exceeds 150 kg/m, required for industrial plants, airports, and transit systems ( ). Installation and Lifecycle Costs: Modular and lightweight trays reduce labor costs. Fire-rated trays may require additional components like firestop collars or intumescent wraps, increasing total project cost ( ).

Galvanized trays may need periodic inspection and maintenance in humid or chemically aggressive environments ( ). Supplier ExamplesTheProjectEstimate.com: Offers hot-dip galvanized ladder trays with standard 2. 4-meter lengths and per-piece pricing for fittings ( ).

Jiangsu Holdee Electric Co., Ltd.: Provides a wide range of galvanized, hot-dip, and coated cable trays with global shipping, covering light to heavy-duty applications ( ).

Direct Channel U

K: Supplies pre-galvanized and hot-dipped trays in various widths (50–600mm) and lengths (1–3 meters), including accessories for complete cable management ( ).

Recommendations

When selecting galvanized fireproof cable trays, consider: Compliance with local fire safety codes (e.g., NFPA 70, IEC 61537). Expected cable load and environmental conditions. Total lifecycle cost including installation, maintenance, and durability.

Supplier reliability and certification (ISO9001, CE, 3C) for quality assurance ( ). This approach ensures both safety and cost-efficiency for commercial, industrial, or infrastructure projects.
