What are the prices and specifications of cable trays in Belgium

Overview

Trayco is specialised in producing and optimising 100% Belgian cable trays, mesh trays, cable ladders, mounting and floor systems.

Key Takeaways

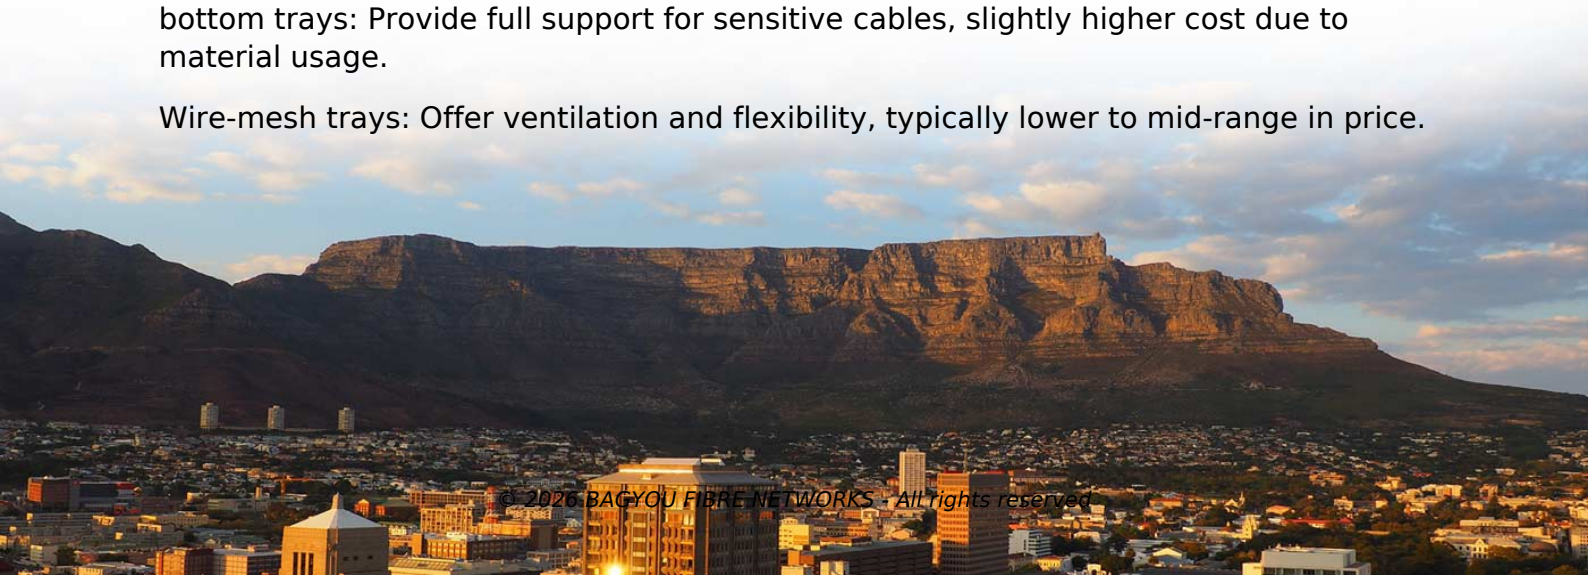

High-quality cable trays in Belgium typically range from €25 to €150 per meter, depending on material, type, and load capacity.

Price Overview

The cost of cable trays in Belgium varies based on material, design, and application. Common materials include: Galvanized steel: €25–€80 per meter, widely used for heavy industrial and outdoor applications due to strength and durability. Stainless steel: €60–€150 per meter, preferred in corrosive environments such as chemical plants, food processing, or coastal areas.

Aluminum: €40–€120 per meter, lightweight and corrosion-resistant, often used in data centers and telecommunications. Tray types also influence pricing: Ladder-type trays: Suitable for heavy cables and long spans, generally mid-to-high range. Solid-bottom trays: Provide full support for sensitive cables, slightly higher cost due to material usage.

Wire-mesh trays: Offer ventilation and flexibility, typically lower to mid-range in price.

Factors Affecting Cost

Load rating and size: Higher load capacity and wider trays increase material and manufacturing costs. Corrosion resistance: Stainless steel or coated finishes add to the price. Customization and installation support: Suppliers like Trayco and Brilltech offer tailored solutions and consulting, which may affect overall project cost.

Regulatory compliance: EU and Belgian standards for fire safety and electromagnetic compatibility can influence material choice and pricing.

Supplier Options

Trayco: Belgian manufacturer offering customized, high-quality trays with installation guidance. Delaby Electro: Provides robust metal cable trays for industrial and commercial applications. Brilltech Engineers: Supplies premium trays in galvanized steel, stainless steel, and fiberglass, with design and installation support.

Europages listings: Multiple B2B suppliers across Belgium for both project-based and MRO applications. For precise pricing, it is recommended to request a quote from suppliers, as costs can vary based on project size, material specifications, and delivery requirements.
