What brand is ACMI optical cable

Overview

Converts a Pilling illuminator end to ACMI. This adapter is to be used with standard Pilling Fiber Optic Cables P358PRA or P356PRA. Converts a Pilling illuminator end to Wolf.

Key Takeaways

ACMI is a medical equipment brand specializing in fiber optic cables and endoscopic instruments.

ACM

I optical cables are manufactured under the ACMI brand, which is recognized for producing high-quality fiber optic cables used in endoscopic and surgical procedures. These cables are designed to transmit bright, uniform light from light sources to endoscopes, ensuring optimal visibility during procedures such as hysteroscopy, laparoscopy, arthroscopy, and urology.

ACM

I cables are often listed alongside other leading medical brands like Karl Storz, Olympus, and Stryker, highlighting their industry reputation. Product DetailsACMI fiber optic cables are available in various specifications, including lengths like 7 feet and diameters such as 4mm, and are compatible with ACMI light sources and instruments. They are precision-engineered to meet medical standards, with features like reinforced mono coils, leak-tight construction, and color-coded sheathing for easy identification.

Some ACM

I cables are also sold as OEM-approved parts through distributors like STERIS, ensuring compliance with equipment warranties and safety standards.

Summary

In short, ACMI is the brand name for these optical cables, and they are widely used in medical and surgical settings for reliable, high-intensity illumination. When sourcing ACMI cables, it is important to ensure compatibility with your specific light source and instrument model to maintain performance and warranty coverage.
