What is the price of a 6-core optical fiber cable

Overview

Amazon.com: 6 Strand Fiber Optic CableShop products from small business brands sold in Amazon's store. Discover more about the small businesses partnering.

Key Takeaways

A 6-core optical fiber cable typically costs between $0. 55 and $4. 25 per foot, depending on fiber type, jacket, and installation requirements.

Material-

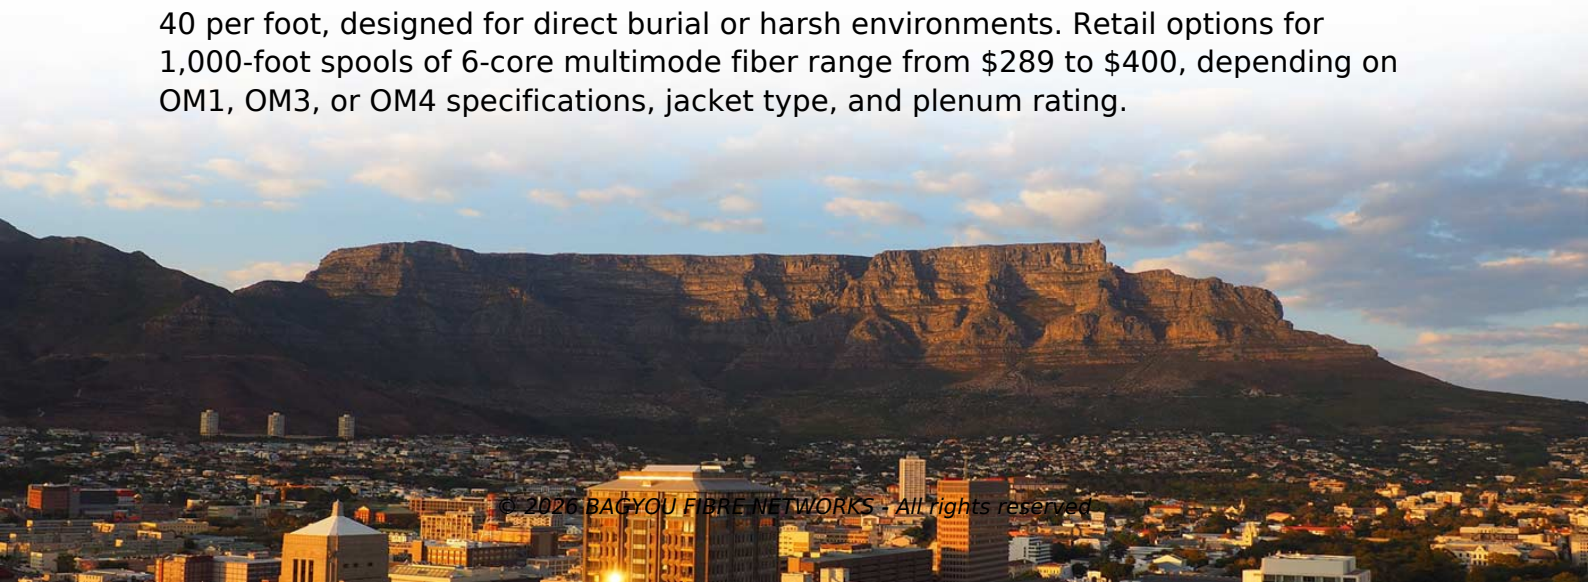

Only Pricing

Multimode OM3/OM4 (indoor/riser): $0. 55 – $1. 10 per foot for standard bulk purchases, with higher-end options reaching $4.

25 per foot for premium or pre-terminated cables. Single-mode OS2: Slightly cheaper per foot, generally $0. 30 – $0.

85 per foot for 6-core outdoor or indoor cables. Armored outdoor 6-core: $1. 10 – $2.

40 per foot, designed for direct burial or harsh environments. Retail options for 1,000-foot spools of 6-core multimode fiber range from $289 to $400, depending on OM1, OM3, or OM4 specifications, jacket type, and plenum rating.

Installed Pricing

Indoor plenum/riser installations: $2. 30 – $4. 90 per foot, including labor, splicing, and basic testing.

Armored outdoor installations: $4. 20 – $7. 50 per foot, accounting for trenching, directional boring, and protective ducting.

Labor often dominates the total cost, especially for splicing and termination, which can add $1. 50 – $12 per foot depending on complexity.

Factors Affecting Price

Fiber Type: Single-mode is cheaper per foot but requires more expensive transceivers; multimode OM4 is higher quality for short-range high-speed networks. Jacket Material: Plenum-rated (CMP) cables cost ~40% more than riser-rated (CMR) due to fire safety requirements.

Armor/

Protection: Armored cables for outdoor or direct burial add 20–50% to the base cost. Quantity & Bulk Orders: Buying 1,000 feet or more can reduce per-foot costs by 20–40%. Customization: OEM branding, color, or pre-terminated connectors increase cost.

Practical Guidance

For indoor office or data center runs, a reasonable budget is $0. 65 – $1. 45 per foot for material, or $2.

30 – $4. 90 per foot installed. For outdoor or direct burial projects, expect $1.

10 – $2. 40 per foot for material, or $4. 20 – $7.

50 per foot installed. Always confirm fiber mode, jacket type, installation environment, and quantity before requesting a quote to avoid underestimating costs. In summary, a reasonable price for a 6-core optical fiber cable in 2026 ranges from $0.

55 to $4. 25 per foot for material, with installed costs ranging from $2. 30 to $7.

50 per foot, depending on specifications and project complexity.
