Which companies use wire mesh cable trays

Overview

This section provides an overview for wire mesh trays as well as their applications and principles. Also, please take a look at the list of 36 wire mesh tray manufacturers and their company rankings.

Key Takeaways

Major companies using wire mesh cable trays include Schneider Electric, Eaton, Legrand, Panduit, Chatsworth Products, ABB, Atkore, and nVent, serving data centers, industrial, and commercial applications.

Leading Manufacturers and Suppliers

Several global companies are recognized for their wire mesh cable tray solutions: Schneider Electric: Offers the UNIQUICK range, widely used in data centers and industrial environments for flexible and durable cable routing. Eaton Corporation: Provides premium wire mesh trays with high load capacity and seismic performance, suitable for harsh industrial conditions. Legrand: Supplies comprehensive wire mesh solutions for commercial and industrial applications, emphasizing ventilation and accessibility.

Panduit Corp.: Specializes in high-performance wire mesh trays with patented cable retention technology, ideal for industrial and data center installations. Chatsworth Products (CPI): Focuses on data center infrastructure, offering superior cable support and airflow management.

AB

B Ltd.: Manufactures wire mesh trays for electrical and data cable management in industrial and commercial projects. Atkore International Inc.: Provides a wide range of cable management systems, including stainless steel and aluminum wire mesh trays.nVent (SCHROFF brand): Delivers wire mesh solutions for mission-critical telecommunications and data center applications.

PU

K Group, Oglaend System, MP Husky Corp., Pemsa SA, Marco Cable Management, Unitrunk, Quest Manufacturing Inc., Calpiping Industries LLC, TechLine Mfg, Profab Engineering Pvt. Ltd., Gerpaas, Navagraha Enterprises, Cablofil Inc., The Niedax Group: These companies also operate in the wire mesh cable tray market, offering specialized or regional solutions.

Applications and Industries

Wire mesh cable trays are widely used in: Data Centers: For organizing copper, fiber optic, and power cables efficiently. Industrial Facilities: Supporting heavy-duty electrical and automation systems. Commercial Buildings: Ensuring safe and accessible cable management in offices and infrastructure projects.

Telecommunications: Providing structured pathways for network and communication cables.

Market Trends

The wire mesh cable tray market is growing due to: Increasing demand for smart buildings and industrial automation. Emphasis on safety, ventilation, and flexible installation. Innovation in materials, coatings, and integrated monitoring systems.

These companies are continuously developing basket cable trays and other advanced solutions to meet evolving infrastructure needs, particularly in data centers and industrial environments.
