Zimbabwe Professional Explosion-proof Distribution Box Manufacturer

Overview

Warom Explosion Proof Equipment | ATEX IECEx Explosion-proof Warom specializes in manufacturing explosion-proof electrical equipment, with products coverin.

Key Takeaways

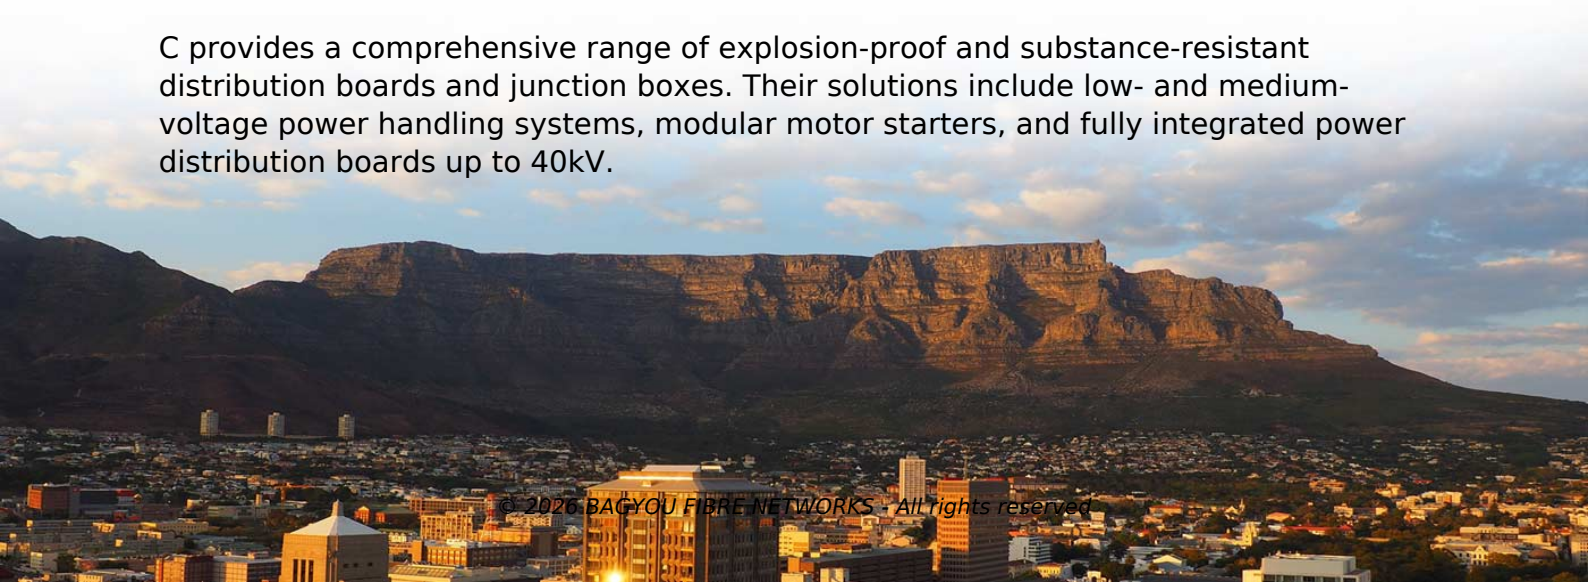

High-quality explosion-proof distribution boxes are available from global manufacturers like Warom, BARTEC, Atex Delvalle, and Extol International, suitable for hazardous zones in Zimbabwe.

Leading Manufacturers and Suppliers

Warom Technology specializes in explosion-proof electrical equipment, including distribution boxes, control panels, and motor switches. Their products comply with IEC, ATEX, and IECEx standards and are widely used in petroleum, chemical, marine, and mining industries. Warom offers various series such as FXMD, HRD99, and CBY20-L, with enclosures made from durable materials suitable for Zone 1 and Zone 2 hazardous areas.

BARTE

C provides a comprehensive range of explosion-proof and substance-resistant distribution boards and junction boxes. Their solutions include low- and medium-voltage power handling systems, modular motor starters, and fully integrated power distribution boards up to 40kV.

BARTE

C emphasizes customized solutions, global certification, and long design life, making them suitable for harsh industrial environments. Atex Delvalle manufactures custom local control stations and distribution boxes in stainless steel (AISI 304L/316L) or GRP. Their products are ATEX and IECEx certified, designed for extreme temperatures and outdoor conditions.

They offer configurable options for terminals, operators, and cable glands, ensuring flexibility for specific industrial requirements. Extol International supplies control panels and distribution boards for hazardous areas with Ex d / Ex'de flameproof protection. Their enclosures are available in stainless steel, aluminium, and cast iron, with IP ratings from IP42 to IP66, suitable for indoor and outdoor applications in Zones 1 (21) and 2 (22),.

Key Considerations for Zimbabwe

Certification: Ensure ATEX, IECEx, or CENELEC compliance for safety in hazardous zones. Material: Stainless steel, aluminium, or GRP for corrosion resistance and durability. Protection Rating: IP66 or higher for outdoor and harsh environments.

Customization: Many suppliers offer configurable terminals, operators, and cable glands to meet specific industrial needs. Application: Suitable for mining, chemical plants, petroleum facilities, and marine engineering. These manufacturers provide in-stock and custom solutions that can be shipped to Zimbabwe, ensuring compliance with international safety standards and reliable operation in hazardous environments.
